SECTION 2 - RULES AND REGULATIONS

General Regulations

Contained herein are specific service descriptions and rates for Company's domestic services.

Carrier is a specialized common carrier providing communications long distance telephone service to customers for their direct transmission and reception of voice, data and other types of telecommunications. International communication services are provided only in conjunction with Carrier's domestic interstate communication services.

Customers may originate calls over switched services several ways; when the customer dials the desired telephone number (including an area code or country/city code); by dialing 101XXXX then the desired telephone number; or, on a dial-up basis by calling the local access number or an 800 service number. Access may be provided over a dedicated access line or switched access line, the DAL may be provided by the Carrier or the customer. When the customer provides the access arrangement, the Carrier can act as the customer's agent in obtaining access, but must in any event approve the design of any dedicated access facility the customer proposes to use. When a call, for some services, is originated using a local access or 800 service number, the Carrier's equipment may, for certain services, answer the access call with a computer tone. The customer may enter additional routing and identifying information. In these instances, communication charges will commence and terminate when the Carrier's switch determines that the call has commenced and terminated, respectively.

The customer's monthly usage charges are assessed based upon the time the customer uses the Carrier's intercity communication facilities as measured by the Carrier's electronic switching equipment, together with his use of service option, if any. Unless otherwise specified, calls will be measured from the time that either the calling or called party disconnects from the call, as indicated by answer supervision. No charge is made for calls not completed. It is not the Carrier's policy to charge a customer for uncompleted calls. A customer may dispute any charges by contacting the Carrier's Customer Services Department and proper credits will be issued if, upon investigation, the disputed charges are found to be incorrect. For billing purposes, the duration of each call will be rounded as specified in the description of each service option in the following sections. The rates per minute charged for service are set forth in Section 3.

At additional cost, and subject to availability, the customer may use accounting codes to identify the users or user groups on his account and to allocate the cost of his service accordingly. The numerical composition of such codes shall be set by the Carrier to assure compatibility with Carrier's accounting and automation systems and to avoid duplication of accounting codes.

Customer orders for special services, technical assistance, equipment or non-routine maintenance and/or installation (the "Special Services"), if available, shall be subject to additional charges determined on a case by case basis. Should the Carrier agree to provide a Special Service and the customer cancels his/her order prior to the commencement of a Special Service or before completion of a minimum period of usage mutually agreed upon by the parties, a charge shall be payable by the customer for the nonrecoverable portions of expenditures or liabilities incurred by the Carrier as a result of the Carrier's order.

SECTION 2 - RULES AND REGULATIONS

General Regulations (Cont'd)

For service that involves the use of an authorization code, Company may assess a network blocking charge on customers for each excessive call attempt as set forth in Section 6 - Network Blocking, as well as any other usage, recurring and non-recurring charges as set forth in this price list. These charges do not constitute liquidated damages, accord any satisfaction, compromise or settlement of any dispute and are in addition to any Civil or Criminal liabilities of the customer for unauthorized use of the Carrier's network.

Company may assess an access charge to aggregators who route operator service calls to the Carrier's network to recover the costs of routing and blocking such all attempts. Such access charge is set forth in Section 6.

The subscriber must obtain an adequate number of access lines for any of Carrier's 800 service to handle the subscriber's expected demand in order to prevent interference or impairment of this service and or any other service provided by the Carrier considering (1) total call volume; (2) average call duration; (3) time-of-day characteristics and (4) peak calling period. The Carrier, without incurring any liability, may disconnect or refuse to furnish any 800 service to a subscriber that fails to comply with these conditions. In case of disconnection, the subscriber will be notified at least five days in advance of the disconnect. Notification may be by mail or in person.

Reservation of an 800 number may be controlled by an independent third party, and is subject to availability of the number at the time a written request is fully processed by all involved parties. Carrier confirmation of verbal requests made prior to receipt of a written request is not binding on Carrier.

Use of Carrier 800 inbound services and 800 telephone numbers is expressly subject to any 800 service policies The Company may implement or may be required to implement from time to time. Customer shall not sell, broker, barter, assign, transfer or release for a fee (or otherwise) any 800 number. With respect to Company assigned 800 numbers, Company shall be deemed the responsible organization (Resp Org). In addition to any other limitations on liabilities contained herein, customer indemnifies and holds Company harmless from all liabilities associated with customer's use of an 800 number including without limitation the premature or incorrect publication or advertisement of an 800 number. Upon cancellation or termination of any 800 service that uses an 800 number that is or may be shared Customer forfeits entirely the right to continued use of the 800 number. If at the time of cancellation of inbound services the customer owes an outstanding balance (30 days or more) to the Resp Org on its Frontier account, the Customer's 800 number shall not be released to another long distance carrier or Resp Org.

It is unlawful to use any telephone number beginning with an 800 service access code, or any other telephone number advertised or widely understood to be toll free, in a manner that would result in: (a) the calling party or the subscriber to the originating line being assessed, by virtue of completing the call, a charge for the call; (b) the calling party being connected to a pay per call service; (c) the calling party being charged for information conveyed during the call unless the calling party has a presubscription or comparable arrangement; or (d) the calling party being called back collect for the provision of audio or data information services, simultaneous voice conversation

SECTION 2 - RULES AND REGULATIONS

General Regulations (Cont'd)

The General Regulation applicable to all domestic and international services, are set forth herein. The detailed product descriptions and rates for services are found in Sections 3, 4, 5 and 6 of this price list. Interstate International products can be found in Frontier Communications of America, Inc.'s International Product Guide.

If, during any one month period, inadequate terminating customer facilities or arrangements result in an unreasonably high number of incomplete 800 calls (as defined as meeting the conditions below) on any customer's 800 service number, a charge of \$.10 will be assessed for each incomplete 800 call during that month if all or any of following conditions (i.e., conditions "a," "b," and "c," or condition "d") have been met:

more than 500 incomplete 800 calls occur in that month,

the number of incomplete 800 calls is greater than 20% of the total number of 800 call attempts in that month on that 800 number, and,

the number of incomplete calls in that month multiplied by an incomplete 800 call rate of \$.10 per call is greater than 7% of the total charges billed to the customer in that month's invoice; or,

the total number of incomplete 800 calls in that month is greater than 5,000.

If, within four weeks of the invoice date of the first assessment of incomplete 800 call charges, the customer 1) takes the necessary actions to prevent the future occurrence of incomplete 800 calls (other than terminating the account), 2) provides documented proof that such actions have been successfully implemented within that four week period, and, 3) requests in such writing a credit for only the initial and subsequent month's assessment of the incomplete 800 call charges, the customer may receive a one time credit of such initial and second month incomplete call charges.

At the Company's option, the Company may either (1) directly bill a customer for any dedicated access line charges of a local exchange carrier or alternate access provider that are incurred by the Company on behalf of the customer, or (2) require the customer to be billed directly by the customer's local exchange provider or alternate access provider for any charges associated with dedicated access lines required to access a Company's dedicated service option.

Limitations of Service

Service is offered subject to the availability of the necessary facilities and/or equipment and subject to the provisions of this price list. The Carrier reserves the right not to provide service to or from a calling location or types of calling locations where the necessary facilities or equipment are not available, or where a pattern of calling reasonably evidences suspected fraudulent or unauthorized calling between those locations.

The Carrier reserves the right to discontinue or suspend furnishing service, without written notice, when necessitated by conditions beyond its control, when the customer is using the service in violation of the provisions of this price list, or in violation of the law, the network is or could be placed in peril by customer's use.

SECTION 2 - RULES AND REGULATIONS

Limitations of Service (Cont'd)

Title to all facilities provided by the Carrier under these regulations remains with the Carrier.

Use of Service

The services offered herein may be used for the transmission of communications to or by the customer.

Service shall not be used for any unlawful purpose, including, but not limited to, the resale of such service without the necessary certificates of authority for such resale, or without complying with other legal requirements for such resale as may be required by the Communications Act of 1934, the rules and regulations of the Federal Communications Commission, and the statutes or regulations of any state.

Interconnection

Service furnished by the Carrier may be interconnected with services or facilities of other authorized communications common carriers and with private systems, subject to the technical limitations established by the Carrier. Service furnished by the Carrier is not part of a joint undertaking with other such carriers. Any special interface equipment or facilities necessary to achieve compatibility between the facilities of the Carrier and other participating carriers shall be provided at the customer's expense.

Interconnection with the facilities or services of other carriers shall be under the applicable terms and conditions of the other carrier's tariffs. The customer is responsible for taking all necessary legal steps for interconnecting his customer-provided terminal equipment or communications systems with Carrier's facilities. He shall secure all licenses, permits, rights-of-way, and other arrangements necessary for such interconnection.

Basic Terms and Conditions of Service

Service is provided and billed on the basis of a minimum period of at least one month, beginning on the date that billing becomes effective, and continues to be provided until canceled, by the customer, in writing, on not less than thirty (30) days' notice.

Service is offered on a monthly basis.

For the purpose of computing charges in this price list, a month is considered to have 30 days.

The name(s) of the customer(s) desiring to use the service must be stipulated in the application for service.

Where specified, a monthly minimum usage level (MMUL) has been established for each term plan option. Where specified, a MMUL, or Minimum Usage Guarantee (MUG), has been established for each term plan option. Charges for all services billed on the Customer's monthly invoice (including services provided by affiliated local service providers), exclusive of "pass-thru" charges and governmental assessments, will be counted toward the Customer's MMUL/MUG.

SECTION 2 - RULES AND REGULATIONS

Basic Terms and Conditions of Service (Cont'd)

If a Customer terminates service prior to the completion of their then-current term of service, a monthly termination penalty equal to the MMUL of the Customer -selected term plan will be assessed for each month remaining on the term plan.

The penalty will not be assessed on those Customers who have met the exemption criteria set forth in any applicable Customer Satisfaction Guarantee. In states where no corresponding intrastate Tariff provision exists, the termination penalty will be deemed to be exclusively interstate in nature.

In addition, all term plans will automatically renew for successive periods of twelve months (15 months for Value Net term plans) unless the Customer notifies the Carrier in writing prior to the expiration of their then-current term plan that they intend to terminate the agreement at the completion of its term. The Carrier will inform the Customer of its auto-renewal provision when service is initially offered. In addition, the Carrier will also notify the Customer of this provision at least 60 days prior to the expiration of their then-current term.

Payment and Billing

The Customer shall be responsible for all calls placed by or through Customer's equipment by any person. In particular and without limitation to the foregoing, the Customer is responsible for any calls placed by or through the Customer's equipment via any remote access features. The Customer is responsible for all calls placed via their authorization code as a result of the Customer's intentional or negligent disclosure of the authorization code. Charges based on actual usage subject to all minimum charge provisions during a month will be billed monthly in arrears. Charges for installation, physical or administration changes, or for cancellation of orders are payable upon completion.

The Carrier shall bill on a current basis all charges incurred by and credits due to the Customer. The Carrier shall bill in advance charges for all services to be provided during the ensuing billing period except for charges associated with service usage.

Bills will be payable upon receipt. Interest at the rate of 1.5% per month (unless a lower rate is prescribed by law, in which event at the highest rate allowed by law) or \$7.50 whichever is higher may be applied in accordance with Carrier's standard credit policy to any unpaid amount commencing 20 days after the statement date.

(N)

Carrier may require customer to submit a formal credit application. Applicants for service or customers whose financial condition is not acceptable to the Carrier or is not known to the Carrier, may be required at any time to make a deposit up to an amount equaling the installation charges, if applicable and/or up to three months actual or estimated charges for the services to be provided. Carrier may also require customers to provide other assurances of payment through the use of credit cards, bank accounts, debits or similar means. In the case of a cash deposit, interest at the rate paid in that locality for escrow accounts, not to exceed 6% simple interest, will be paid for the period during which the deposit is held by the carrier. At the Carrier's option, such deposit may be refunded or credited to the customer at any time prior to termination of service.

For the purpose of billing, the start of service is the day of acceptance by the customer of the Carrier's service. The end of service is the last day after receipt by the Carrier of notification of discontinuance.

SECTION 2 - RULES AND REGULATIONS

Payment and Billing (Con'd)

The Carrier, at its option, may terminate service for nonpayment after written notification has been made to the customer of delinquency.

A reasonable handling charge, not less than \$10.00, will be assessed for all checks returned by the drawee bank for: insufficient or uncollected funds, closed account, apparent tampering, missing signature or endorsement, or any other insufficiency or discrepancy necessitating return of the instrument at the discretion of the drawee bank.

The customer shall give the Carrier prompt written notice of any disputed charges appearing on an invoice. After receiving notice of a dispute, the Carrier shall take reasonable steps to resolve such disputes. The customer shall pay all non-disputed charges while resolution of the disputed charges is pending.

In the event that legal action is instituted by Carrier to recover any sums then due and Carrier prevails, Carrier shall be entitled to recover its costs of collection, legal costs, court costs and reasonable attorneys' fees, in addition to whatever other relief the court may award. Any sums then due shall earn interest at the rate of one and one-half (1-1/2%) percent simple interest per month (unless a lower rate is prescribed by law, in which event at the highest rate allowed by law), from the date these sums were accrued until the entire debt is paid in full.

Customer and Carrier agree that, absent another Carrier designation to customer or other provision of law, an action to recover Carrier's charges or fees for services provided to customer that remain unpaid or delinquent,

And to otherwise enforce the Terms of the service agreement between Carrier and Customer, shall lie if brought and maintained in a court of competent jurisdiction located in Michigan, where Carrier's retail accounts are normally supported. Customer and Frontier accept the jurisdiction and venue of such courts and shall not object to their jurisdiction and venue. Carrier may also initiate an action to collect unpaid charges or fees and to enforce terms and conditions in any other place where customer is subject to jurisdiction and services.

To obtain credits for wrong numbers, cut-offs or poor transmission of calls, the customer has the following options: 1) an immediate inconvenience credit may be obtained for wrong number, cut-offs and poor transmission of calls by calling the Company's Customer Service Department. The immediate credit given may not be equal to the actual charge of the call in question or; 2) the customer has the option upon obtaining their monthly invoice, to identify the specific charge for which they request adjustment and submit a copy of the invoice to the Company's Customer Service Department to receive the requested credit. The credits for these calls are given in Section 2 following. The Company reserves the right to determine what charges in question receive a credit.

SECTION 2 - RULES AND REGULATIONS

Liability

The entire liability of the Company for all claims of whatever nature arising out of the Company's provision of the services and not caused by the customer's negligence, shall not exceed an amount equal to the proportionate fixed monthly charges to the customer for the period of service during which any mistake, omission, interruption, delay, error or defect in the services of the Company's equipment or any other event of action giving rise to a claim, occurs. The Company's liability for its willful misconduct, if any, is not limited by its tariff or price list. In no event shall the Company be liable for special, punitive, consequential or incidental damages. The Company disclaims any express or implied warranties with respect to the services of company equipment, including without limitation, any implied warranties or merchantability and fitness for a particular purpose.

The Company is not liable for any act of omission of any other company or companies furnishing a portion of the service.

The Company shall be indemnified and held harmless by the customer against:

Claims for libel, slander, infringement of copyright or unauthorized use of any trademark, trade name or service mark arising out of the material, data, information, or other content transmitted over the Company's facilities.

Claims for patent infringement arising from combining or connecting the Company's facilities with apparatus and systems of the customer.

All other claims arising out of any act of omission of the customer in connection with any service provided by the Company.

The Company shall not be liable for and the customer indemnifies and hold the Company harmless from any and all loss, claims, suits, or other actions, or any liability whatsoever, whether suffered, made, instituted or asserted by the customer or by any other party or persons, for any personal injury to, or death of any person, or persons, and for any loss, damages, defacement or destruction of the premises of the customer of any other property, whether owned by the customer or others, of for any incidental, special or consequential damages including interruption to business, caused or claimed to have been caused directly or indirectly by the installation, operation, failure to operate, maintenance, removal, presence, condition, location or use of any equipment provided by the Company (e.g., including but not limited to autodialers jacks, antennas, etc.) or wiring provided by the Company where such installation, operation, failure to operate, maintenance, condition, location or use is not the direct result of the Company's intentional acts. No agents or employees of other carriers shall be deemed to be agents or employees of the Company.

In no event shall the Company be liable to any customer for any damages caused by act of omission of any local exchange carrier or other third party in establishing the Company as the customer primary interexchange carrier. The Company shall not be liable for any charges billed to the customer by another carrier caused by a local exchange carrier's failure to process a request designating the Company as the customer's primary interexchange carrier or caused by any act or omission of any third party.

SECTION 2 - RULES AND REGULATIONS

Liability (Cont'd)

The Company reserves the right to transfer customer accounts to other carrier at the Company's sole discretion. The Company is not liable do any losses, damage, claims, suits, or other actions asserted by the customer due to the policies, procedures, service quality, or charges instituted by a carrier to who the Company transfers customer accounts.

Interruption of Service

Credit allowance for interruptions of service which are not due to the Carrier's testing or adjusting, or due to the negligence of the customer, or to the failure of channels, equipment and/or communications systems provided by the customer, are subject to the general liability provisions set forth in Section 2.9 herein. It shall be the obligation of the customer to notify the Carrier of any interruption in service. Before giving such notice, the customer shall ascertain that the trouble is not being caused by any action or omission of the subscriber, not within his control, or is not in the wiring or equipment connected to the terminal of the Carrier.

Restoration of Service

The use and restoration of service in emergencies shall be in accordance with Part 64, Subpart D of the Federal Communications Commission's Rules and Regulations, which specifies the priority system for such activities.

Discontinuance by Carrier

The Carrier, by written notice to the customer, may immediately discontinue service or cancel an application for service without incurring any liability for any of the following reasons:

Nonpayment of any sum due to the Carrier for service for more than 30 days beyond the date of rendition of the bill for such service;

A violation of any regulation governing the service under this price list;

A violation of any law, rule or regulation of any government authority having jurisdiction over the service;

The Carrier is prohibited from furnishing services by order of a court or other government authority having jurisdiction.

The Carrier may discontinue service without written notice to the customer after the customer has not used his service for three consecutive months.

SECTION 2 - RULES AND REGULATIONS

Cancellation by Customer

Service will be provided until canceled by the customer. Cancellation by the customer must be provided in writing, on not less than thirty (30) days' notice. If a customer orders service and then cancels his order before the service begins, before completion of the minimum period, or before completion of some other period mutually agreed upon, in writing, by the customer and the Carrier, a charge will be made to the customer for the nonrecoverable portions of expenditures or liabilities incurred expressly on behalf of the customer by the Carrier and not fully reimbursed by any assessed installation, minimum, and monthly charges (including those for the minimum service period). If, based on such an order, any construction has either begun or been completed, and no service provided, the nonrecoverable cost of such construction shall be borne by the customer.

Inspection, Testing and Adjustment

Carrier may, upon reasonable notice, make such tests and inspections as may be necessary to determine whether the requirements of this price list are being complied with in the installation, operation or maintenance of the customer's or the Carrier's equipment. The Carrier may interrupt the service at any time, without penalty to itself, because of departure from any of these requirements except as provided below.

Upon reasonable notice, the facilities provided by the Carrier shall be made available to the Carrier for such tests and adjustments as may be necessary to maintain them in satisfactory condition. No interruption allowance will be granted for the time during which such tests and adjustments are made.

Change in Service Agreement

When a change in service arrangement involves the continued use by the customer of circuits furnished by Carrier, installation charges do not apply to the circuits continued in use. The minimum service period for the circuits contained in use is determined from the date of the initial installation thereof.

Local Charges

In certain instances, the customer may be subject to local telephone charges or message unit charges in using Carrier's service. Carrier is not responsible for any such local charges imposed directly on the customer by the local telephone company for gaining access to Carrier's intercity network.

Taxes and Surcharges

Customer will be billed for and is liable for payment of all applicable federal, state and local taxes, surcharges, utility, other assessments, taxes or fees including such amounts as Carrier may be authorized to pass through to the customer.

SECTION 2 - RULES AND REGULATIONS

Taxes and Surcharges

When utility or telecommunications assessments, gross receipts taxes, regulatory fees, franchise fees, or privilege, license, occupational, excise, or other similar taxes or fees, based on interstate receipts are imposed by certain taxing jurisdictions upon the Company or upon local exchange companies and passed on to the Company through or with interstate access charges, the amounts of such taxes or fees may be billed to customers in such a taxing jurisdiction on a prorated basis. The amount of charge that is prorated to each customer's bill is determined by the interstate telecommunications services provided to and billed to a customer service location in such a taxing jurisdiction with the aggregate of such charges equal to the amount of the tax or fee imposed upon or passed on to the Company.

A surcharge will be assessed on all charges for outbound service originating at, or inbound service terminating at, addresses in states which levy, or assert a claim of right to levy an ad valorem tax on the Company's interstate property located in that state. This surcharge is based on property located in that state and used by the Company to provide interstate service. The surcharge is derived by using the ratio of interstate revenue to total revenue from all states which levy an ad valorem tax on the Company, multiplied by total ad valorem taxes imposed in those states.

Pending the conclusion of any challenge to a Jurisdiction's right to impose an ad valorem Tax, or gross revenue receipts tax, the Carrier may elect to impose and collect a surcharge covering Such a tax, unless otherwise constrained by court Order or direction, or it may elect not to impose and collect the surcharge.

If it has collected a Surcharge and the challenged tax is found to have been unenforceable, the carrier, in its sole discretion, will either reduce service rates, for a fixed period of time in the future in order to flow-through to the customer an amount equivalent to the funds collected or it will credit or refund such amounts to affected customers (less its reasonable administrative costs), if the funds collected were retained by the carrier, or its affiliates, or if they were delivered over to the Taxing jurisdiction and returned to the carrier, or its affiliates, or negotiated an arrangement with the taxing jurisdiction that benefits customers in the Jurisdiction in the future.

Payphone Surcharge

Pursuant to Section 276 of the Telecommunications Act of 1996, as implemented by the Federal Communications Commission, FRONTIER COMMUNICATIONS OF AMERICA will assess a \$0.60 per call surcharge on the billed party for all domestic and international calls viewed by FRONTIER COMMUNICATIONS OF AMERICA as completed, when such calls are placed from telephones which transmit an informational digit of "07", "27" or "70" and are dialed using an access code of 1-800/888, 950, 101XXXX or any similar "dial around" access code.

Said surcharge will recover the amounts FRONTIER COMMUNICATIONS OF AMERICA are required to compensate payphone service providers and any such costs incurred by FRONTIER COMMUNICATIONS OF AMERICA in complying with such compensation requirements.

SECTION 2 - RULES AND REGULATIONS

Taxes and Surcharges (Cont'd)

Federal USF Recovery Charge

Pursuant to the Telecommunications Act of 1996, as implemented by the Federal Communications Commission (FCC), FRONTIER is required to pay into a federally-mandated "Universal Service Fund" by means of "contribution factors" assessed on all or part of FRONTIER's interstate and international revenues. The "Universal Service Fund" provides federally-subsidized affordable access to modern telecommunications and information services for schools, libraries, and rural health care facilities who meet specific eligibility standards, as well as provides support to specified federal "Lifeline", Link-up" and "High Cost Fund" programs used to subsidize local telephone service.

In accordance with FCC guidelines set forth in Order No. 97-157, FRONTIER has elected to pass-through these Universal Service Fund Costs to all retail customers. Accordingly FRONTIER assesses a "Universal Service Fund (USF) Recovery Charge" on all charges for interstate and international services, including those charges billed on FRONTIER's behalf by a third party agent with the capability to assess such a surcharge. The USF Recovery Charge is computed as a percentage of the charges on which it is assessed. The percentage is equal to the USF Contribution Factor as determined from time to time by the Federal Communications Commission.

The USF Recovery Charge will be assessed beginning April 1, 2003 in those geographic areas where billing and collection services are provided by a Local Exchange or a Competitive Local Exchange Carrier affiliated with FRONTIER COMMUNICATIONS OF AMERICA.

Federal Pre-Subscribed Line Charge (FEPS)

In addition to all the other rates and charges in this DIPL, Customers whose local telephone lines are pre-subscribed to the Carrier for InterLATA switched services will be assessed a monthly per line Federal Pre-subscribed line charge as outlined below. This charge is not discountable and does not contribute toward meeting minimum usage requirements. This charge will be assessed for each month or portion thereof in which the Customer's line(s) are pre-subscribed to the Carrier by the Customer's local exchange provider. Frontier Company Official Lines will not be assessed the surcharge.

(N)
(N)

Federal Pre-subscribed line charges will be assessed based on the most current pre-subscribed line data submitted to the Carrier by the Customer's local exchange carrier, and will be assessed based on the class of service designated for the line by the Customer's local exchange carrier as follows:

Carrier Cost Recovery Surcharge

Carrier Cost Recovery Surcharge (CCRS) is a surcharge that will be assessed on a monthly basis. It recovers various costs, including costs Frontier Communications of America incurs in the administration of the Universal Service Fund, the national fund for the Telecommunications Relay Service, regulatory expenses and compliance items.

The CCRS will be billed on a monthly basis in arrears, will not be pro-rated, and applies at the account level when pre-subscribed to Frontier Communications of America. This surcharge is not based upon 1+ or toll free levels of usage.

SECTION 2 - RULES AND REGULATIONS

Terminal Equipment

The Carrier's facilities and service may be used with or terminated in customer-provided terminal equipment or customer-provided communication systems, such as teleprinters, handset or data sets. Such terminal equipment shall be furnished and maintained at the expense of the customer, except as otherwise provided. The customer is responsible for all costs at their premises, including customer personnel, wiring, electrical power and the like, incurred in customer use of Carrier's service.

When such terminal equipment is used, the equipment shall comply with the minimum protective criteria set forth below and shall not interfere with service furnished to the customers. Additional protective equipment, if needed, shall be employed at the customer's expense. When service using local telephone company voice grade facilities is terminated in customer-provided terminal equipment, channel derivation devices, or communications systems, the customer shall comply with the following minimum protective criteria:

When the facilities furnished under this price list are used in common with local telephone company system services, it is necessary, in order to prevent excessive noise and crosstalk, that the power of the signal applied to local telephone company lines be limited. A single valued limit for all applications cannot be specified. Therefore, the power of the signal in the band above 300 Hertz which may be applied by the customer-provided equipment at the point of termination will be specified by the Carrier for each application, to be consistent with the signal power allowed on the telecommunications network.

SECTION 2 - RULES AND REGULATIONS

Terminal Equipment (Cont'd)

To protect the telecommunications services from interference at frequencies which are above the band of service provided, the Carrier will specify the acceptable signal power in the following bands to be applied by the customer-provided equipment or communications system at the point of termination to ensure that the input to local telephone company facilities does not exceed the limits indicated:

The power in the band from 3,995 Hertz to 4,000 Hertz shall be at least 18 dB below the power of the signal as specified in subsection (1) preceding.

The power in the band from 4,000 Hertz to 10,000 Hertz shall not exceed 16 dB below one milliwatt.

The power in the band from 10,000 Hertz to 25,000 Hertz shall not exceed 24 dB below one milliwatt.

The power in the band from 25,000 Hertz to 40,000 Hertz shall not exceed 36 dB below one milliwatt.

The power in the band above 40,000 Hertz shall not exceed 50 dB below one milliwatt.

Where there is connection via customer-provided terminal equipment or communications system to a Message Telecommunications Service to prevent the interruption or disconnection of calls, or interference with network control signaling, it is necessary that the signal applied by the customer-provided equipment to the interface at no time has energy solely in the 2450 to 2740 Hertz band. If signal power is in the 2450 to 2750 Hertz band, it must not exceed the power present at the same time in the 800 to 2450 Hertz band.

Where such customer-provided equipment or communications system applies signals having components in the frequency spectrum below 300 Hertz, excluding ringing signals, the currents and voltages (including all harmonics and spurious signals) at the interface shall not exceed the limits indicated in (a) through (d) following:

The maximum rms (root-mean-square) value, including dc and ac components, of the current per conductor shall not exceed 0.35 ampere.

The magnitude of the peak of the conductor or ground voltage shall not exceed 70 volts.

The conductor voltage shall be such that the conductor-to-ground voltage limit in (b) preceding applies to the conductor-to-conductor voltage.

SECTION 2 - RULES AND REGULATIONS

Terminal Equipment (Cont'd)

The total weighted rms voltage within the band from 50 Hertz shall not exceed 100 volts. The total weighted rms voltage is the square root of the sum of the products times the square of the rms voltage of the individual frequency components. The weighting factors are as indicated:

<u>for frequencies between</u>	<u>weighting factor</u>
50 Hertz and 100 Hertz	f /10
100 Hertz and 300 Hertz	f /10

where f is the numerical value of the frequency, in Hertz, of the frequency component being weighted.

The customer shall also comply with the minimum protective criteria generally accepted in the telephone industry and other appropriate criteria as may be prescribed by the Carrier. The customer shall ensure that his terminal equipment is properly interfaced with the Carrier's facilities, that the signals emitted into the Carrier's facilities are of the proper mode, band-width, power, data speed, and signal level for the intended use of the customer, and that the signals do not damage the Carrier's equipment, injure personnel or degrade service to other customers.

If the customer fails to maintain and operate his terminal equipment properly, resulting in the occurrence or possibility of harm to the Carrier's equipment, personnel, or the quality of service to other customers, the Carrier may, upon written notice, require the use of protective equipment at the customer's expense. If this fails to produce satisfactory quality and safety of service, the Carrier may, upon written notice, terminate the customer's service.

Credit Regulations

Pursuant to limitations set forth in Section 2 preceding, the following will apply:

Interruption of Service

No credit will be allowed for relinquishing facilities in order to perform routine maintenance.

Credit for failure of service or equipment will be allowed only when such failure is caused by or occurs in facilities or equipment provided by the Carrier. As used in this price list, all equipment, facilities and/or services for which the Carrier renders a bill for payment are considered provided by the Carrier whether or not the equipment, facilities and/or services are owned and operated by the Carrier.

SECTION 2 - RULES AND REGULATIONS

Credit Regulations (Cont'd)

Interruption of Service (Cont'd)

No credit will be allowed:

For failure of service or equipment due to customer or authorized user-provided facilities.

For failure of service or equipment due to negligence or willful acts of the customer or his authorized user.

For unauthorized use by agents, employees, or representatives of the customer.

Credit allowance for failure of service or equipment starts when the customer notifies the Carrier of the failure or when the Carrier becomes aware of the failure, and ceases when service has been restored and/or the equipment becomes operational.

The customer shall notify the Carrier of failures of service or equipment and make reasonable attempts to ascertain that the failure is not caused by the customer-provided facilities.

Credit will be allowed only for disabled portions of the service or equipment.

The Carrier, at its option, may deny a customer request for credit in accordance with Carrier's standard credit policy against charges incurred for service provided by another carrier where notification of alleged inferior or inadequate service has not been received by Carrier's Customer Service Department within 24 hours of the occurrence. No credit will be allowed absent such notification.

Outage Credit

For the purposes of this price list, all months contain 30 days. Service and equipment offered by the Carrier are on a 24 hour per day, seven days per week basis unless specifically stated otherwise.

For purposes of credit computations, every month shall be considered to have 720 hours.

No credit shall be allowed for an interruption of less than 2 hours.

The customer shall be credited for an interruption of 2 hours or more at the rate of 1/360th of the monthly charge for the facilities affected for each period of 2 hours or major fraction thereof.

Where a minimum usage charge is applicable and the customer fails to meet a usage minimum, credit for the outage shall be applied against that minimum equal to 1/360th of the monthly minimum charges associated with the portion of service disabled for each period of 2 hours or major fraction thereof.

SECTION 2 - RULES AND REGULATIONS

Credit Regulations (Cont'd)

Cancellation Credit

Where the Carrier cancels a service or the provision of equipment and the final service period is less than the monthly billing period, a credit will be issued for any amounts billed in advance, prorated at 1/30th of the monthly recurring charge equipment was provided. This credit will be issued to the customer or applied against the balance remaining on the customer's account.

When a customer or the carrier cancels a service or feature associated with a service (for example accounting codes), associated monthly recurring charges previously billed will not be refunded or prorated for any unused portion of the current billing period.

Credit Formula

$$\text{Credit} = \frac{T \times C}{24}$$

"T" is outage time in hours

"C" is total daily charge for affected facility.

Schedule of Immediate Credits for Domestic Calls

Immediate credits will be given for calls which are cut-off, calls to a wrong number and calls with poor transmission quality. Credits are determined as follows:

Credit for calls to a wrong number will equal the normal one minute charge for that call based on caller's service option, distance called and time of day.

Credit for calls which are cut off will equal the normal two minute charge for that call based on caller's service option, distance called and time of day.

Credit for calls with poor transmission quality will equal the normal three minute charge for that call based on caller's service option, distance called and time of day.

SECTION 2 - RULES AND REGULATIONS

Calculation of Distance

Mileage between domestic locations will be determined by applying the formula listed below to the Vertical and Horizontal coordinates set forth in AT&T's domestic Tariff Number 10 incorporated by reference herein.

The airline mileage between two locations may be calculated using the Vertical (V) and Horizontal (H) coordinates set forth in Part B of AT&T's Table II according to the following formula:

$$\sqrt{\frac{(V_1V_2)^2 + (H_1H_2)^2}{10}}$$

Where V_1 and H_1 correspond to the V & H coordinates of Location 1 and V_2 and H_2 correspond to the V & H coordination of Location 2.

Minimum Monthly Usage Requirement/Commitment

Unless otherwise specified, telecommunications monthly recurring charges and non-recurring charges will contribute toward satisfying a customer's minimum monthly usage requirement (MMUR) or minimum monthly usage commitment (MMUC).

Service Locations

The Company service is available throughout the United States where Frontier Communications of America facilities are available.

CLEAR VALUE

Clear Value is a long distance service which provides customers with single per minute rates for both their inbound (800) and outbound (1+) usage. Clear Value customers may originate outbound calls by dialing 1 plus an area code and the desired telephone number. Inbound calls are originated to the Clear Value customer's designated location by users dialing 1 plus the Clear Value customer's 800 telephone number. Clear Value calls are based on the length of the call and the time of day.

The customer's Clear Value service is charged at the applicable rates per minute set forth in Section 3 based on the Clear Value product option selected. Clear Value switched 1+, Mobile Line long distance option and 800 calls are billed in six second increments, with a thirty second minimum for each call and, Multipoint 800 option calls are billed in one minute increments, with a one minute minimum for each call. Any fraction of an increment is rounded up to the next whole increment. Clear Value dedicated access 1+ and 800 calls are billed in six second increments, with an eighteen second minimum for each call. Any fraction of an increment is rounded up to the next whole increment. Clear Value customers who make long distance calls through Access are billed in one minute increments with a one minute minimum or, Spectrum are billed in six second increments with a thirty second minimum at the per minute and per call rates set forth in Section 3. Any fraction of an increment is rounded up to the next whole increment.

Clear Value customers may subscribe to one of eight (8) mutually exclusive Product One service options: Clear Value month-to-month (MTM); Clear Value Term Plan I, Term Plan II, Term Plan III, Term Plan IV, Term Plan V, Term Plan VI or Term Plan VII. For each Clear Value Term plan option, an Product One customer must commit to either a one year (12 month) term agreement two year (24 month) or three year (36 month) term agreement. Clear Value customers electing either a two or three year term plan agreement will receive one of the applicable per minute discount off of the base one year term plan rates. The applicable per minute discounts are set forth in Section 3. Clear Value customers may elect either a switched or dedicated access option (or both) for Term Plans II*, III, IV, V or VI. Term Plans V and VI may use switched access only in conjunction with a dedicated access option. The MTM option is only available on a switched access basis. Clear Value customers electing a dedicated access option will be billed by their local exchange carrier or alternative provider for all monthly and non-recurring charges associated with the dedicated access facilities required to access Clear Value. Clear Value Term Plan options will automatically renew for successive periods of one year unless the Clear Value Term Plan customer notifies The Company in writing before the end of the term that the Term Plan customer intends to terminate the agreement at the completion of the current term. There is a monthly minimum usage level (MMUL) for each term plan option, as set forth in Section 3. Beginning with the customer's second invoice, and for the remaining months of any term plan commitment, the customer will be charged the difference between the gross account usage and the MMUL if the gross account usage is less than the MMUL. A monthly termination fee, equal to the MMUL of the term plan that the Clear Value customer is subscribing to, will be assessed per month for each of the remaining months in the current term after a Clear Value customer terminates service prior to the completion of the full term of service. There is a monthly recurring charge for Clear Value service, which is set forth below. New Clear Value customers will receive a discount credit equal to the monthly recurring charge applicable to their option selected. Existing Frontier customers who subscribe to Clear Value will be assessed a monthly recurring charge for Clear Value Service as set forth in the table below.

*Term Plan II dedicated service available only in the states of Idaho, Washington, and Oregon.

SECTION 3 - SERVICE DESCRIPTIONS

CLEAR VALUE

Clear Value customers who have also selected Multipoint 800 service will have all of their Multipoint 800 calls rated and billed at the per minute rates in Section 3, and their Clear Value Multipoint 800 usage will be eligible for the volume discount credits set forth below. Clear Value dedicated customers calls that overflow to Clear Value switched access lines will be billed at the switched access rates associated with the Clear Value customer's dedicated access term plan option.

FRONTIER FLEXMINUTES

Frontier FlexMinutes is a non-distance sensitive product that includes direct dial 1+ outbound service and FLEX 800 PIN based toll free. This plan is available to customers of local exchange companies with whom the carrier has a billing and collections contract. Customer must subscribe to this product on the main billing number on the account. Free usage allowance of minutes is determined by Customer's choice of Frontier FlexMinutes plan from this price list. Rates for 1+ outbound service calls can be found in Section 3.50 of this price list.

(D)

The monthly recurring charge is applied at the account level. International rates for this product are found in the Frontier FlexMinutes International Schedule in the International Pricelist.

Frontier FlexMinutes includes the attributes of the Frontier Communications of America product FLEX800, and the rates, terms and conditions for FLEX800 can be found in this price list. Frontier FlexMinutes exceptions to the standard FLEX8000 product are: one toll free number is included at no charge (with additional toll free numbers charged at the standard FLEX800 rate), and FLEX800 domestic calls are charged the standard FLEX800 rates when they occur outside the free usage allowance of minutes, specified by the corresponding Frontier Flex Minutes plan chosen from this price list.

(D)

The Customer invoice call detail will only be supplied for all toll charges if the customer exceeds the free usage allowance as determined by the plan chosen. If the total monthly usage is less than the allowance, then all the call detail will be suppressed on the invoice. For a one-time inquiry the call center consultant can provide the customer with a screen print to supply call detail. If the customer requests that all call detail information be provided on a monthly basis regardless if they were under or over the customer selected block of free minutes allowance, then this service will be available at no additional charge. Balances of unused minutes will not be carried over from one billing cycle to another billing cycle, and will be forfeited.

All calls are subject to a minimum billing of one minute with an additional billing increment of one minute. Charges will be rounded to the nearest cent on a per call basis.

*As of 3/31/08, this service is Grand-fathered. Only customers of record as of 3/31/08 may have the service.

FRONTIER VIP

Frontier VIP Standard and VIP Plus are long distance services that provide Customers with single per minute rates for both their inbound (8XX) and outbound (1+) switched and dedicated usage. VIP Standard and VIP Plus are offered dependant upon the availability of Carrier capability, and are only available in conjunction with Carrier's IntraState VIP service offering.

SECTION 3 - SERVICE DESCRIPTIONS

FRONTIER VIP

Rate Structure

Frontier VIP switched calls are on-distance sensitive, flat-rated, twenty-four (24) hours a day, seven days a week.

Usage Charges

Customers may subscribe to Frontier VIP Standard and VIP Plus switched and dedicated service on either a Month-to-Month, one, two or three year Term Plan. The Customer's total monthly usage of Frontier VIP is charged at the applicable per minute rates set forth in this price list. Frontier VIP switched inbound (8XX) and outbound service is billed in six-second increments, with eighteen-second minimum for each call. Any fraction of an increment is rounded up to the next whole increment. To calculate rounding, the raw usage charge for the call is calculated as the call duration (minimum plus fractional duration) multiplied by the 4-digit (\$0.XXXX) rate value. That amount is then rounded up or down to the nearest whole cent.

Subscribers to VIP Standard and VIP Plus term plan service will be eligible to receive discounts on domestic 1+ and domestic Toll-Free calls. Applicable discounts are based on total monthly (domestic) usage for the respective service. VIP Standard total usage does not include the local services of affiliated ILECs with a billing and collection agreement with the Carrier, while VIP Plus total usage does include these local services. All discount credits will be applied against the customer's interstate usage. Applicable discounts are set forth in this price list. Subscriber to Frontier VIP Term Plan services will receive a percent discount off the switched or dedicated Term Plan base rate, based on the Term Plan selected. The Volume Discount Levels and applicable discounts are specified in this price list.

Frontier VIP Standard Term Plans will automatically renew for successive twelve (12) month periods unless the Customer notifies the Carrier in writing before the end of their current term of their intention to terminate the agreement at the completion of the term. Frontier VIP Plus Term Plans will default to VIP Standard month-to-month plans if not renewed. Customers electing to continue receiving service without renewing their current term commitment will automatically revert to the respective switched current effective base rate.

A termination fee, equal to the Number of lines cancelled x number of months remaining on the contract x \$25.00, will be assessed when a VIP Standard or CIP Plus Customer terminates service prior to the completion of the then current term. For a dedicated service customer the "number of lines" is equal to the number of channels (i.e., a T1 loop would constitute 24 lines).

Frontier VIP may be applied at the parent or child account levels. (Allowing different child accounts to have different long distance products). For customer with VIP Plan at the parent account level, all qualified billing rolls up to the parent to determine total monthly billing and the appropriate "super-volume" discount level for that month. Child account discounting will be applied based on the higher (parent or child) VIP Plan term and "total volume" discount. Discounts will be shown per call type at the account level on billing statements.

Ancillary Services

An additional \$1.99 per call surcharge will be assessed on all calls placed for intrastate Directory Assistance.

Usage Charges

With the Frontier Choices Unlimited option, unlimited usage is available only on the main billing number on the account. All calls are billed in one-minute increments with a minimum billing of one minute per call. Only one Frontier plan is to be on the account for all lines. Frontier Choices Unlimited long distance provides unlimited minutes of direct dialed 1+ domestic calling for residential voice service only. Domestic calling is within the United States including Alaska, Hawaii, Puerto Rico, and the U.S. Virgin Islands, Guam, American Samoa and Saipan.

The Choices Unlimited service is offered to the residential user, for the Customer's personal, residential, non-business and non-professional use. Using the Choices Unlimited service is prohibited for any commercial or governmental activities, for profit or non-profit, including but not limited to home office, business, sales, telecommuting, telemarketing, continuous autodialing, fax broadcast, fax blasting, accessing the Internet with a long distance dial-up number, resale or transfer of the Frontier Choices Unlimited service or any other activity that would be inconsistent with normal residential voice applications and usage patterns, including conference calls. Average residential Customer use will be determined by Frontier based on average minutes of use of the Plan by representative residential Customers served by Frontier who subscribe to the Plan. If a Customer has substantially more than average residential Customer use, Frontier may regard such use as non-residential use subject to the remedies set forth following. Frontier may suspend, restrict or cancel the Customer's service, subject to applicable notice requirements. If it is determined that the usage on the Frontier Choices Unlimited is not consistent with residential voice applications, substantially exceeds average residential use, or is otherwise prohibited (such as long distance dial-up Internet calls), Frontier may immediately convert the service to an FCA plan that charges for all long distance calls or, where systems permit, charge a 10-cent per minute rate for non-voice long distance calls, or calls that are not considered normal residential voice usage. Additional restrictions may apply.

SECTION 3 - SERVICE DESCRIPTIONS

FRONTIER CHOICES UNLIMITED (CONT'D)

The Monthly Recurring Charge (MRC) for Frontier Choices Unlimited is billed in advance and can be found in this price list. The MRC includes unlimited usage for intrastate and interstate calls from the main billing number on the account to anywhere in the United States including "offshore" locations: (Hawaii, Alaska, Puerto Rico, and the U.S. Virgin Islands, Guam, American Samoa and Saipan). If a new customer to Frontier Choices Unlimited enrolls mid-billing cycle, the MRC will be prorated. The unlimited minutes of long distance service do not include usage for calls to 900 numbers, long distance directory assistance, or operator services.

On the invoice there will be no individual call detail for usage that is associated with the unlimited direct dialed calls that are included in this plan. If the customer changes their long distance pre-subscription on their main line without any instruction as to what to do regarding the additional phone lines, the Frontier Unlimited plan option will automatically be removed from the main line and thus the customers account. Note: To maintain the account for the customer, the remaining lines will be placed onto Frontier One or Simple Rate calling plan depending on the associated LEC.

Additional phone lines are available on this plan. Each additional line will be billed a per minute domestic rate defined in this price list. All calls are billed in one-minute increments with a minimum billing of one minute per call. The additional phone lines will not have the 30-free minutes applied since the Frontier Choice Unlimited long distance plan is not an eligible plan for the 30-free minutes. If a customer subsequently does not pre-subscribe their additional line(s) to FCA but continues to have service on the main billing number on the account provided by FCA, casual calling rates on the additional line(s) will apply.

If a customer selects the Frontier Choices Tier III product offering from the associated LEC, pre-subscription to FCA Unlimited is required for the main billing number and the additional line(s).

(D)
(D)

International direct dial calls are not included in the unlimited usage for Frontier Choices Unlimited. International rates for Frontier Choices Unlimited are found in the Frontier WorldWide Standard or Optional plans in the International Pricelist of FCA. If the Customer does not choose the Optional WorldWide plan, the international plan will be the Standard WorldWide international plan. All international calls are billed in one-minute increments with a minimum billing of one minute per call.

FRONTIERWORKS LD

FrontierWorks LD is a non-distance sensitive product that includes direct dial 1+ outbound service and (8XX) toll free inbound service. Pre-subscription of the primary line is required to subscribe to FrontierWorks LD offered by Frontier Communications of America, Inc (FCA). This plan is available to customers of local exchange companies (LEC) with whom the carrier has a billing and collections contract, and is enrolled in the FrontierWorks Small Business Solutions product offered by that associated LEC. This product is only available in conjunction with the FrontierWorks LD plan from Frontier Communications of America, Inc.'s state tariff.

Term plans and termination liability that the customer agrees to for FrontierWorks LD in conjunction with the FrontierWorks Small Business Solutions product can be found in the local exchange tariff of FCA's associated LEC.

SECTION 3 - SERVICE DESCRIPTIONS

FRONTIERWORKS LD (Cont'd)

Rate Structure

FrontierWorks switched calls are non-distance sensitive, flat-rated, with the following rating periods:

Monday - Friday		Saturday & Sunday
N= Night	12:00 AM - 7:59AM	N = Night 12:00AM Saturday through 11:59 PM on Sunday.
D= Day	8:00 AM - 4:59PM	
E= Evening	5:00 PM - 11:59PM	

Usage Charges

Customers enrolled in this product will receive a total of 100 free direct dial 1+ and (8XX) toll free interstate, interLATA or intraLATA minutes per month, measured at the account level. Any usage above the allotted free minutes will be subject to an overage rate that can be found in the rate section of this price list.

A single optional Block of Time (BOT) quantity of minutes can be ordered in conjunction with FrontierWorks LD, in monthly increments of 250, 500, and 1000 minutes, for an additional monthly recurring charge (MRC). The MRC for the BOT is applied at the account level, and can be found in the rate section of this price list. Any usage above the 100 free minutes and the BOT minutes will be rated at an intrastate overage rate per minute, and these rates can be found in the rate section of this price list. Overage rates may vary depending upon which BOT is selected. If a new customer to FrontierWorks LD signs up mid-billing cycle, free minutes and the BOT minutes will be prorated. If moving between BOTs, minutes will be prorated based upon the number of days of that billing cycle and will be charged the appropriate overage rate for the BOT selected at the time the call was completed. Usage will be billed in arrears. Excluded from the BOT minutes are: long distance Directory Assistance, and 900 calls. (D)

In the event a customer has multiple lines on their account, and any of the auxiliary lines are not on the FrontierWorks Small Business Solutions product of the associated LEC, those lines are not eligible for the 100 free minutes or a BOT selection offered by FrontierWorks LD. If a customer selects an FCA product for auxiliary lines other than FrontierWorks, the customer will be subject to the rates, terms and conditions of that product

Intrastate rates for usage outside the zero-rated minutes or the optional BOT minutes are found in the Domestic Price List of Frontier Communications of America, Inc. International rates for this product are found in the International Product Guide of Frontier Communications of America, Inc.

All calls are subject to a minimum billing of eighteen seconds with an additional billing increment of six seconds. Charges will be rounded up to the nearest cent on a per call basis.

Ancillary charges

An additional \$1.99 per call surcharge will be assessed on all calls placed for intrastate Directory Assistance.

Freedom Calling may be used in conjunction with the Frontier Choices service offering in this pricelist.

An additional per call surcharge will be assessed on all calls placed for intrastate Directory Assistance, and rates can be found in the rate section of this price list.

SECTION 3 - SERVICE DESCRIPTIONS

FREEDOM PLAN

Freedom Plan is a long distance plan that offers the Residential Customer a simplified rates structure for long distance calls placed through 1+ Switched Access Service. Freedom Plan is designed as a set of jurisdictionally integrated calling plans. A customer may order the Red, White, or Blue Freedom Plan only in conjunction with the corresponding Red, White, or Blue Freedom Plan offered by the Company for intrastate calling. The intrastate portion of Freedom Plan is subject to regulation by the appropriate state regulator. The interstate portion of Freedom Plan may include a monthly recurring charge. In general, higher monthly recurring charges are associated with lower per minute charges. Freedom Plan does not require volume or term commitments.

CITIZENS BUSINESS LONG DISTANCE

Citizens Business Long Distance is a long distance plan that offers the Business Customer a simplified rate structure with reduced rates for volume and/or term commitments. Citizens Business Long Distance is a jurisdictionally integrated rate plan and must be ordered in conjunction with the intrastate plan of the same name. The intrastate portion of Citizens Business Long Distance is subject to regulation by the appropriate state regulator.

A customer may commit to a 2-year term of service, a 1-year term of service, or make no term commitment. A customer may commit to minimum spending of \$1000 per month, \$500 per month, or make no minimum spending commitment. Both interstate and intrastate billing are counted toward meeting the minimum spending commitment.

INFORMATION DIGIT SCREENING

Information Digit Screening is an optional inbound service feature which blocks calls originating from certain types of stations considered undesirable by the feature subscriber. Calls are evaluated on the basis of their information digits which have been assigned and provided by the originating Local Exchange Carrier for this purpose. Subscribers may select from one of four Information Digit Screening types:

- Type 1: blocks station type information digits 07, , 27, 29, 70
- Type 2: blocks station type information digits , 27, 29, 70
- Type 3: blocks station type information digits , 27, 70
- Type 4: blocks station type information digits 29

The specific station type information digits are defined as follows:

- 07 Special operator handling required - Calls generated from stations that require further operator or operator services system screening.

SECTION 3 - SERVICE DESCRIPTIONS

INFORMATION DIGIT SCREENING

- | | |
|----|--|
| 27 | Coin - When it can be determined, at an SSP, from the trunk group that a call is a coin call, but the originating office does not provide ANI for coin lines, code "27" is sent from the SSP to indicate the call is from a coin line. |
| 29 | Prison/Inmate Service - Calls originating on stations within a confinement/detention facility that are intended for inmate/detainee use and require outward call screening and restriction. |
| 70 | Private paystations - Calls originating from private paystations (coin and/or coinless). |

Rate Structure

Charges for Information Digit Screening are assessed as a fixed non-recurring, and fixed monthly recurring fee per subscribing inbound number, each having per account maximums.

MINIMUM MONTHLY USAGE CHARGE-Z

A Monthly Minimum Usage Charge (MMUC) will apply to all, Home Connections II, HomeSaver, Multipoint 800, Access, Spectrum, Simple Connect, and Frontier One accounts established on, before or after July 5, 1999. This charge will apply in lieu of the Customer's Total Usage Charges in any billing period in which the Customer's Total Usage Charges are less than the MMUC. When the Customer's Total Usage Charges exceed the MMUC, the MMUC does not apply.

Total Usage Charges include all intrastate, interstate and international usage and recurring charges from any Company services billed to the Customer's account. Taxes, Universal Service Recovery Charges, PICCs, directory assistance and operator services calls are excluded from Total Usage Charges.

Rate Structure

The Monthly Minimum Usage Charge is applied per Customer account. Customers will be billed one MMUC for each account.

SECTION 3 - SERVICE DESCRIPTIONS

FRONTIER DESTINATIONS

Frontier Destinations State to State and Frontier Destinations Instate are long distance services that provide Customers with single per minute rates for both their inbound (8XX) and outbound (1+) switched usage. Destinations State to State and Destinations Instate are offered dependant upon the availability of Carrier capability. This service is available to customers of local exchange companies (LECs) with whom the carrier has a billing and collections contract. This service is only available in conjunction with the respective Frontier Destinations plan from Frontier Communications of America, Inc.'s intrastate tariff or price list. If a customer selects this service, all lines pre-subscribed to Frontier Communications of America, Inc. are to be on this account level plan.

Rate Structure

The Monthly Recurring Charge (MRC) for Frontier Destinations State to State and Frontier Destinations Instate is billed in advance and can be found following. If a customer's direct dial outbound domestic and international 1+ usage, toll free usage, and FCA direct dial directory assistance charges, excluding taxes and surcharges, total greater than \$50.00 in any given month, the MRC will be waived for the following month. Usage above and beyond the \$50.00 threshold cannot be carried over to another month to meet another month's threshold. An additional MRC will be assessed per toll-free number that is requested by the customer, and the rates can be found following. Destinations State to State and Destinations Interstate switched calls are non-distance sensitive, flat-rated, twenty-four (24) hours a day, seven days a week.

Usage Charges

Customers may subscribe to Destinations State to State or Destinations Instate switched service on either a Month-to-Month, one or two year Term Plan. The Customer's total monthly usage is charged at the applicable intrastate per minute rates set forth following. Frontier Destinations State to State and Frontier Destinations Instate switched inbound (8XX) and outbound service is billed in six-second increments, with a thirty-second minimum for each call. Any fraction of an increment is rounded up to the next whole increment. To calculate rounding, the raw usage charge for the call is calculated as the call duration (minimum plus fractional duration) multiplied by the 4-digit (\$0.XXXX) rate value. That amount is then rounded up to the nearest whole cent.

Frontier Destinations State to State and Destinations Instate Term Plans will automatically renew for successive twelve (12) month periods, and will continue to renew for additional one year periods at the then current tariffed rates in effect for a one or two year term unless the Customer notifies the Carrier in writing 60 days before the end of their current term of their intention to terminate the agreement at the completion of the term. During the term, rates may be changed for the plan with 30 days notice. If the rate is an increase, customers will have 30 days from the date notified to make a change or cancel their long distance contract without penalty.

A customer may change between any currently available Frontier term plan without penalty if the term commitment for the new plan is equal or longer than the remaining term commitment of the old plan

A termination fee, equal to the Number of accounts cancelled multiplied by the number of months remaining on the contract multiplied by \$50.00, will be assessed when a Destinations State to State and Destinations Instate Customer terminates service prior to the completion of the then current term.

Ancillary Services

An additional per call surcharge will be assessed on all calls placed for intrastate Directory Assistance.

A single Block of Time (BOT) quantity of minutes must be ordered in conjunction with Frontier Mohave Choices LD, in monthly increments of 300 and 500 intrastate and interstate minutes, for an additional monthly recurring charge (MRC) applied at the account level. Customers who have selected a broadband service offering from Citizens Utilities Rural Company will be required to select the 500 minute BOT, and customers who have not selected the broadband service offering from the associated ILEC will be required to select the 300 minute BOT in order to select this LD service offering. The MRC for the BOT can be found in the rates section of this price list. If a customer has multiple lines on the account, minutes of use will be allocated to the block of time allotments in sequential order from lowest to highest of the ten digit line numbers on the customer's account that are subscribed to this plan. Any excess BOT minutes not used for any give billing month will expire and cannot be used against any other month's usage. Any interstate usage above the BOT minutes will be rated at an interstate overage rate per minute, and these rates can be found in the rate section of this price list. Overage rates may vary depending upon which BOT is selected. Intrastate rates for usage outside the BOT minutes are found in the respective state tariff of FCA. International rates for this product are found in the International Product Guide of FCA.

MOHAVE CHOICES LD (cont'd)

Usage Charges (cont'd)

If a new customer to Frontier Mohave Choices LD signs up mid-billing cycle, the BOT minutes will be prorated. If moving between BOTs, minutes will be prorated based upon the number of days of that billing cycle and will be charged the appropriate overage rate for the BOT selected at the time the call was completed. Usage will be billed in arrears. Excluded from the BOT minutes are: long distance Directory Assistance, operated assisted and 900 calls.

(D)

All calls are subject to a minimum billing of sixty seconds with an additional billing increment of sixty seconds. Charges will be rounded up to the next cent on a per call basis.

***FRONTIER DIGITAL PHONE SILVER**

Frontier Digital Phone Silver is a non-distance sensitive product that includes direct dial 1+ outbound service. Pre-subscription of the primary line to Frontier Communications of America, Inc. (FCA) is required to subscribe to Frontier Choices. This product is only available in conjunction with the Frontier Digital Phone Silver plan from FCA's New York State Tariff. This plan is available to customers of local exchange companies (LEC) with whom the carrier has a billing and collections contract. The Customer must subscribe to the Frontier Digital Phone Silver local service product offered by that associated LEC and must be on the main billing number on the account in order to be eligible for the Frontier Digital Phone Silver option.

Rates and Charges

Frontier Digital Phone Silver calls are non-distance sensitive, flat-rated with the following rating periods:

Monday – Friday		Saturday & Sunday
E= Evening	12:00 AM – 7:59AM	N = Night 12:00AM Saturday through 11:59 PM on Sunday.
D= Day	8:00 AM – 4:59PM	
E= Evening	5:00 PM – 11:59PM	

Usage Charges

With the Frontier Digital Phone Silver option, unlimited intrastate usage is available only on the main billing number on the account. All calls that do not qualify for unlimited calling are billed in one-minute increments with a minimum billing of one minute per call. Interstate 1+ calls will be rated on a per call basis, and are not part of the unlimited calling option. Only one Frontier plan is to be on the account for all lines. This product is available for residential voice service only. The unlimited minutes of long distance service do not include usage for calls to 900 numbers, long distance directory assistance, or operator services.

The Frontier Digital Phone Silver service is offered to the residential user, for the Customer's personal, residential, non-business and non-professional use. Using the Frontier Digital Phone Silver service is prohibited for any commercial or governmental activities, for profit or non-profit, including but not limited to home office, business, sales, telecommuting, telemarketing, continuous autodialing, fax broadcast, fax blasting, accessing the Internet with a long distance dial-up number, resale or transfer of the Frontier Digital Phone Silver service or any other activity that would be inconsistent with normal residential voice applications and usage patterns, including conference calls. Average residential Customer use will be determined by Frontier based on average minutes of use of the Plan by representative residential Customers served by Frontier who subscribe to the Plan. If a Customer has substantially more than average residential Customer use, Frontier may regard such use as non-residential use subject to the remedies set forth following. Frontier may suspend, restrict or cancel the Customer's service, subject to applicable notice requirements. If it is determined that the usage on the Frontier Digital Phone Silver is not consistent with residential voice applications, substantially exceeds average residential use, or is otherwise prohibited (such as long distance dial-up Internet calls), Frontier may immediately convert the service to an FCA plan that charges for all long distance calls or, where systems permit, charge a 10-cent per minute rate for non-voice long distance calls, or calls that are not considered normal residential voice usage. Additional restrictions may apply.

For an additional monthly recurring charge of \$10, a customer of this plan may choose the option of unlimited Interstate 1+ calling, subject to Frontier Digital Phone Silver terms and conditions.

SECTION 3 - SERVICE DESCRIPTIONS

***FRONTIER UNLIMITEDNY** (continued)

Usage Charges (continued)

The Monthly Recurring Charge (MRC) for Frontier UnlimitedNY is billed in advance and can be found in FCA's intrastate tariff. If a new customer to Frontier UnlimitedNY enrolls mid-billing cycle, the MRC will be prorated.

On the invoice there will be no individual call detail for usage that is associated with the unlimited direct dialed calls that are included in this plan. If the customer changes their long distance pre-subscription on their main line without any instruction as to what to do regarding the additional phone lines, the Frontier UnlimitedNY plan option will automatically be removed from the main line and thus the customers account. Note: To maintain the account for the customer, the remaining lines will be placed onto Frontier One or Simple Rate calling plan depending on the associated LEC.

Additional phone lines are available on this plan. Each additional line will be billed a per-minute domestic rate defined in this price list. All calls are billed in one-minute increments with a minimum billing of one minute per call. If a customer subsequently does not pre-subscribe their additional line(s) to FCA but continues to have service on the main billing number on the account provided by FCA, casual calling rates on the additional line(s) will apply.

8xx inbound products may be used in conjunction with Frontier UnlimitedNY, where available.

Usage Charges

With the Frontier Digital Phone Service of Ohio and Pennsylvania option, unlimited interstate usage is available only on the main billing number on the account. All calls that do not qualify for unlimited calling are billed in one-minute increments with a minimum billing of one minute per call. Only one Frontier plan is to be on the account for all lines. Frontier Digital Phone Service of Ohio and Pennsylvania long distance provides unlimited minutes of direct dialed 1+ interstate calling for residential voice service only. The unlimited minutes of long distance service do not include usage for calls to 900 numbers, long distance directory assistance, or operator services.

Frontier Digital Phone Service of Ohio and Pennsylvania is offered to the residential user, for the Customer's personal, residential, non-business and non-professional use. Using Frontier Digital Phone Service of Ohio and Pennsylvania is prohibited for any commercial or governmental activities, for profit or non-profit, including but not limited to home office, business, sales, telecommuting, telemarketing, continuous autodialing, fax broadcast, fax blasting, accessing the Internet with a long distance dial-up number, resale or transfer of the Frontier Digital Phone Service of Ohio and Pennsylvania or any other activity that would be inconsistent with normal residential voice applications and usage patterns, including conference calls. Average residential Customer use will be determined by Frontier based on average minutes of use of the Plan by representative residential Customers served by Frontier who subscribe to the Plan. If a Customer has substantially more than average residential Customer use, Frontier may regard such use as non-residential use subject to the remedies set forth following.

SECTION 3 - SERVICE DESCRIPTIONS

• FRONTIER DIGITAL PHONE SERVICE OF OHIO AND PENNSYLVANIA (Cont'd)

Usage Charges (Cont'd)

Frontier may suspend, restrict or cancel the Customer's service, subject to applicable notice requirements. If it is determined that the usage on the Frontier Digital Phone Service of Ohio and Pennsylvania is not consistent with residential voice applications, substantially exceeds average residential use, or is otherwise prohibited (such as long distance dial-up Internet calls), Frontier may immediately convert the service to an FCA plan that charges for all long distance calls or, where systems permit, charge a 10-cent per minute rate for non-voice long distance calls, or calls that are not considered normal residential voice usage. Additional restrictions may apply.

On the invoice there will be no individual call detail for usage that is associated with the unlimited direct dialed calls that are included in this plan. If the customer changes their long distance pre-subscription on their main line without any instruction as to what to do regarding the additional phone lines, the Frontier Digital Phone Service of Ohio and Pennsylvania plan option will automatically be removed from the main line and thus the customers account. Additional phone lines are available on this plan. Each additional line will be billed a-per minute domestic rate defined in this price list. All calls are billed in one-minute increments with a minimum billing of one minute per call. If a customer subsequently does not pre-subscribe their additional line(s) to FCA but continues to have service on the main billing number on the account provided by FCA, casual calling rates on the additional line(s) will apply.

8xx inbound products may be used in conjunction with Frontier Digital Phone of Ohio and Pennsylvania, where available.

Monthly Charges

The Monthly Recurring Charge (MRC) for Frontier Digital Phone Service of Ohio and Pennsylvania is billed in advance. If a new customer to Frontier Digital Phone Service of Ohio and Pennsylvania enrolls mid-billing cycle, the MRC will be prorated.

Customers who subscribe to this plan and commit to a one-, two or three-year term commitment, will be given a \$10.00 credit per month for the length of the contract. If the customer terminates the service before the end of the term, a termination fee of up to \$200.00 applies.

SECTION 3 - SERVICE DESCRIPTIONS

FRONTIER BUSINESS UNLIMITED

Frontier Business Unlimited (FBU) is a non-distance sensitive product that includes direct dial 1+ outbound service. Pre-subscription of the primary line to Frontier Communications of America, Inc. (FCA) is required to subscribe to the Frontier Business Unlimited. This product is only available in conjunction with the Frontier Business Unlimited plan from Frontier Communications of Rochester's New York State Tariff.

Rate and Charges

Frontier Business Unlimited calls are non-distance sensitive and flat-rated with the following rating periods:

Monday-Friday		Saturday & Sunday
N = Night	12:00 AM – 7:59 AM	N = Night
D = Day	8:00 A – 4:59 PM	12:00 AM Sat – 11:59 on Sunday
E = Evening	5:00 PM – 11:59 PM	

Usage Charges

FBU long distance minutes are only available on FBU line(s) for commercial domestic outbound long distance voice usage and exclude toll free, 900, international, directory assistance, information services and dial-up internet calls. Additional non-FBU lines will be charged a per minute rate (found in the rates section following) for domestic long distance calling and normal Local Measured Service charges for local calls. If unlimited minutes are used for non-voice calls, Frontier may charge a per minute rate (found in the rates section following) for non-voice long distance calls. Customers with usage inconsistent with normal commercial voice applications and usage patterns may be converted to non-FBU service with charges for local and long distance calling.

The unlimited long distance plan may be used only for voice applications and may not be used for the transmission of data, for Internet connections, or for any other non-voice applications. This service may not be used for autodialing, long distance Internet or intranet access (including access to corporate LANs), telemarketing or telesales applications.

FBU service is not available with PBX trunks, ground start lines or trunks, key system lines or trunks, Centrex service, foreign central office services, public telephone services, and analog to digital conversion digital PBX services or the equivalents of any such services. The Terms and Conditions may be revised periodically. Revisions are applicable to then current service and usage.

On the invoice there will be no individual call detail for usage that is associated with the unlimited direct dial calls that are included in this plan. If the customer changes their long distance pre-subscription on their line to another carrier, the Frontier Unlimited Bundle will automatically be removed from the line and thus the customer's account.

Business customers who subscribe to the Plan and commitment to a one, two or three year term commitment will be given \$10.00 off per month for the length of the contract. There will be a flat rate early termination fee of \$150.00 if the customer cancels the term before the end of the contract period.

Monthly Charges

If a customer new to Frontier Business Unlimited signs up mid-billing cycle, the monthly recurring charge (MRC) will be prorated. Usage not included in the Unlimited Long Distance plan will be billed in arrears.

***FRONTIER DIGITAL PHONE SILVER**

Frontier Digital Phone Silver is a non-distance sensitive product that includes direct dial 1+ outbound service. Pre-subscription of the primary line to Frontier Communications of America, Inc. (FCA) is required to subscribe to Frontier Digital Phone Silver. This product is only available in conjunction with Frontier Digital Basic Bundle or Digital Phone Service from FCA's State Tariff. This plan is available to customers of local exchange companies (LEC) with whom the carrier has a billing and collections contract. The Customer must subscribe to the Frontier Digital Phone Silver local service product offered by that associated LEC and must be on the main billing number on the account in order to be eligible for the Frontier Digital Phone Silver option.

Rates and Charges

Frontier Digital Phone Silver calls are non-distance sensitive, flat-rated with the following rating periods:

Monday – Friday		Saturday & Sunday
E= Evening	12:00 AM - 7:59AM	N = Night 12:00AM Saturday through 11:59 PM on Sunday.
D= Day	8:00 AM - 4:59PM	
E= Evening	5:00 PM - 11:59PM	

Usage Charges

With the Frontier Digital Phone Silver option, unlimited intrastate usage is available only on the main billing number on the account. All calls that do not qualify for unlimited calling are billed in one-minute increments with a minimum billing of one minute per call. Interstate 1+ calls will be rated on a per call basis, and are not part of the unlimited calling option. Only one Frontier plan is to be on the account for all lines. This product is available for residential voice service only. The unlimited minutes of long distance service do not include usage for calls to 900 numbers, long distance directory assistance, or operator services.

The Frontier Digital Phone Silver service is offered to the residential user, for the Customer's personal, residential, non-business and non-professional use. Using the Frontier Digital Phone Silver service is prohibited for any commercial or governmental activities, for profit or non-profit, including but not limited to home office, business, sales, telecommuting, telemarketing, continuous autodialing, fax broadcast, fax blasting, accessing the Internet with a long distance dial-up number, resale or transfer of the Frontier Digital Phone Silver service or any other activity that would be inconsistent with normal residential voice applications and usage patterns, including conference calls. Average residential Customer use will be determined by Frontier based on average minutes of use of the Plan by representative residential Customers served by Frontier who subscribe to the Plan. If a Customer has substantially more than average residential Customer use, Frontier may regard such use as non-residential use subject to the remedies set forth following. Frontier may suspend, restrict or cancel the Customer's service. If it is determined that the usage on the Frontier Digital Phone Silver is not consistent with residential voice applications, substantially exceeds average residential use, or is otherwise prohibited (such as long distance dial-up Internet calls), Frontier may immediately convert the service to an FCA plan that charges for all long distance calls or, where systems permit, charge a 10-cent per minute rate for non-voice long distance calls, or calls that are not considered normal residential voice usage. Additional restrictions may apply.

SECTION 3 - SERVICE DESCRIPTIONS

DIGITAL PHONE NATIONWIDE UNLIMITED SERVICE – 2010*

(T)

Digital Phone Nationwide Unlimited Service is a non-distance sensitive product that includes direct dial 1+ outbound service. Pre-subscription of the primary line to Frontier Communications of America, Inc. (FCA) is required to subscribe. This plan is available to customers of certain local exchange companies (LEC) with whom the carrier has a billing and collections contract. The Customer must subscribe to the Digital Phone Nationwide Unlimited Service local service product offered by that associated LEC and must be on the main billing number on the account in order to be eligible for the Frontier Digital Phone Service option.

Rates and Charges

Digital Phone Nationwide Unlimited Service calls are non-distance sensitive, flat-rated with the following rating periods:

Monday – Friday		Saturday & Sunday
D= Day	8:00 AM - 4:59PM	N = Night 12:00 AM Saturday through 11:59 PM on Sunday.
E= Evening	5:00 PM - 11:59PM	
N= Night	12:00 AM - 7:59AM	

Usage Charges

With the Digital Phone Nationwide Unlimited Service option, unlimited interstate usage is available only on the main billing number on the account. All calls that do not qualify for unlimited calling are billed in one-minute increments with a minimum billing of one minute per call. Only one Frontier plan is to be on the account for all lines. Digital Phone Nationwide Unlimited Service long distance provides unlimited minutes of direct dialed 1+ interstate calling for residential voice service only. The unlimited minutes of long distance service do not include usage for calls to 900 numbers, long distance directory assistance, or operator services.

Digital Phone Nationwide Unlimited Service is offered to the residential user, for the Customer's personal, residential, non-business and non-professional use. Using Digital Phone Nationwide Unlimited Service is prohibited for any commercial or governmental activities, for profit or non-profit, including but not limited to home office, business, sales, telecommuting, telemarketing, continuous autodialing, fax broadcast, fax blasting, accessing the Internet with a long distance dial-up number, resale or transfer of the Digital Phone Nationwide Unlimited Service or any other activity that would be inconsistent with normal residential voice applications and usage patterns, including conference calls. Average residential Customer use will be determined by Frontier based on average minutes of use of the Plan by representative residential Customers served by Frontier who subscribe to the Plan. If a Customer has substantially more than average residential Customer use, Frontier may regard such use as non-residential use subject to the remedies set forth following. Frontier may suspend, restrict or cancel the Customer's service, subject to applicable notice requirements. If it is determined that the usage on the Digital Phone Nationwide Unlimited Service is not consistent with residential voice applications, substantially exceeds average residential use, or is otherwise prohibited (such as long distance dial-up Internet calls), Frontier may immediately convert the service to an FCA plan that charges for all long distance calls or, where systems permit, charge a 10 cent per minute rate for non-voice long distance calls, or calls that are not considered normal residential voice usage. Additional restrictions may apply.

*This service is limited to existing customers at their existing locations.

(T)

Usage Charges (Cont'd)

On the invoice there will be no individual call detail for usage that is associated with the unlimited direct dialed calls that are included in this plan. If the customer changes their long distance pre-subscription on their main line without any instruction as to what to do regarding the additional phone lines, the Digital Phone Nationwide Unlimited Service plan option will automatically be removed from the main line and thus the customers account. Additional phone lines are available on this plan. Each additional line will be billed a-per minute domestic rate defined in this price list. All calls are billed in one-minute increments with a minimum billing of one minute per call. If a customer subsequently does not pre-subscribe their additional line(s) to FCA but continues to have service on the main billing number on the account provided by FCA, casual calling rates on the additional line(s) will apply.

8xx inbound products may be used in conjunction with Digital Phone Nationwide Unlimited Service, where available.

Monthly Charges

The Monthly Recurring Charge (MRC) for Digital Phone Nationwide Unlimited Service is billed in advance. If a new customer to Digital Phone Nationwide Unlimited Service enrolls mid-billing cycle, the MRC will be prorated.

Customers who subscribe to this plan and commit to a one-, two or three-year term commitment, will be given a 5% credit per month for the length of the contract. If the customer terminates the service before the end of the term, a termination fee of up to \$200.00 applies.

*This service is limited to existing customers at their existing locations.

SECTION 3 - SERVICE DESCRIPTIONS

RESIDENTIAL SIMPLE RATE PLAN*

Residential Simple Rate Plan is available to residential customers who subscribe to this plan. InterLATA and intraLATA toll telecommunications services are available for calls originating at any service location within the state and terminating at any point within the state.

Usage Charges

All calls are billed in one-minute increments. Fractional minutes are calculated to the next higher minute. If computed charges include a fraction of a cent, the fraction is rounded up to the next whole cent. Interstate calls are rated at the 1+ interstate rates as listed for residential 1+ service as provided in the Company's Domestic Price List.

All international calls are rated at the residential 1+ international service as provided in the Company's International Price List.

FRONTIER BLOCK OF TIME

Frontier Block of Time is a non-distance sensitive product that includes direct dial 1+ intrastate and interstate outbound service and optional (8XX) toll free inbound service. This product is available to customers of local exchange companies (LECs) with whom the carrier has billing and collections contract and is enrolled in one of the local access products offered by the associated LEC. The blocks of time are offered in 500, 1,000, 2,500, 5,000, 10,000, and 20,000.

(T) (D)

Usage Charges

The MRCs for the BOT can be found in Section 4 of this price list. If a customer has multiple lines on the account, minutes of use will be allocated to the block of time allotments in sequential order from lowest to highest of the ten digit line numbers on the customer's account that are subscribed to this plan. Any excess BOT minutes not used for any given billing month will expire and can not be used against any other monthly usage. Any usage above the BOT minutes will be rated at an overage rate per minute and these rates can be found in Section 4.

All calls are subject to a minimum of eighteen seconds with an additional billing increment of six seconds. Charges will be rounded to the next cent on a per call basis.

Monthly Charges

The BOT charge for the service is billed in advance. If a new customer to the plan signs up mid-billing cycle, the BOT minutes will be prorated. If moving between BOTs, minutes will be prorated based upon the number of days of that billing cycle and will be charged the appropriate overage rate for the BOT selected at the time the call was completed. Usage will be billed in arrears. Excluded from the BOT minutes are Directory Assistance, Payphone, and 900 calls

The service can be purchased on a month to month basis.

SECTION 3 - SERVICE DESCRIPTIONS

Business Cents

Business Cents is a long distance service which provides business customers with per minute rates for both their inbound (800) and outbound (1+) usage. Business Cents customers may originate outbound calls by dialing 1 plus an area code and the desired telephone number. Inbound calls are originated to the Business Cents customer's designated location by users dialing 1 plus the Business Cents customer's 800 telephone number. Business Cents calls are based on the length of the call. The customer's Business Cents service is charged at the applicable rates per minute set forth in Section 4 based on the Business Cents product option selected. Business Cents switched 1+, and 800 calls are billed in six second increments, with a thirty second minimum for each call. Any fraction of an increment is rounded up to the next whole increment.

There is a monthly minimum usage level (MMUL) to the plan, as set forth in the rate section. The MMUL is at the account level. Beginning with the customer's second invoice, the customer will be charged the difference between the gross account usage and the MMUL if the gross account usage is less than the MMUL. There is a monthly recurring charge for Business Cents service. The monthly recurring charge is not calculated as part of the monthly minimum usage level.

Monthly Charges

The Monthly Recurring Charge (MRC) for the Frontier Business Cents can be found in Section 4 of this tariff.

Directory Assistance and National Directory Assistance

National Directory Assistance (NDA) provides to the Customer available published telephone numbers of switched voice telephone service subscribers based on name or name and address information provided by the Customer to the Directory Assistance operator. The Directory Assistance charge applies to each call by the Customer requesting Directory Assistance regardless of whether the Directory Assistance bureau is able to furnish the requested telephone number. Directory Assistance will provide the Customer with up to two telephone numbers per call. If the Customer should disconnect the call prior to being provided the two telephone numbers, the Directory Assistance charge will still be assessed. All applicable service charges and surcharges apply in addition to the Directory Assistance charge specified below. If the Customer receives an incorrect telephone number and notifies the Company, a billing credit for Directory Assistance charges shall be provided. Service can be originated only from the continental U.S., Alaska and Hawaii and may be terminated within the United States, subject to network availability. Directory Assistance will be provided for published telephone numbers only in the U.S. and its territories (American Samoa, Puerto Rico, Guam, Northern Mariana Islands and U.S. Virgin Islands).

Company assumes no responsibility or liability for any errors in the information furnished. The caller shall indemnify Company and hold it free and harmless of and from any and all claims, demands or damages that shall arise from the use of the service

Direct dialed Directory Assistance Service calls are dialed by the Customer and completed without the assistance of an operator, except where system capabilities allow billing of a surcharge for Operator Assisted surcharge for calls placed to Directory Assistance via an operator, instead of direct dialed by the Customer. This surcharge is billed at the Operator Assisted Service Charge rate as specified in this tariff. The services of an operator are not to be used in connection with the completing of direct dialed Directory Assistance Service calls except in the following cases:

SECTION 3 - SERVICE DESCRIPTIONS

5 Cents Plan (Plan M)*

General Description

5 Cents Plan (Plan M) is an optional calling plan offered to Residential Customers for outbound direct-dialed calling. This flat rate plan is available 24 hours a day, seven days a week for all interexchange direct dialed calling. 5 Cents Plan (Plan M) utilizes Customer-provided switched access lines that are presubscribed to the Company. This plan is offered in conjunction with the corresponding intrastate rate plan.

Calls are billed in one (1) minute increments after an initial minimum call duration of one (1) minute. Any partial minute is rounded up to a full minute.

This calling plan is only offered where billing and system capability exist.

Other Term and Conditions

Taxes and Fees are in addition to the stated rates.

Rates and Charges

The Monthly Recurring Charge (MRC) for 5 Cents Plan (Plan M) can be found in Section 4 of this tariff.

This calling plan is only offered where billing and system capability exist. A Monthly Recurring Charge (MRC) is billed each month in advance and applies per account, regardless of the number of lines presubscribed to the Company's 5 Cents Plan (Plan M). If there are multiple lines on an account, only one MRC will be assessed. Intrastate and international services are provided in accordance with the corresponding intrastate and international tariffs and rate schedules. The MRC applies in full each month for each account, except in the case of the first and last month partial billing cycles where the MRC will be prorated based on the actual number of days the Customer had the service during the billing cycle. When service is used for both interstate and intrastate calling, the MRC applies only once.

Minimum Spend Level

When the Customer's billing for applicable charges falls below a minimum level in any full billing period, a shortfall charge will be applied, which is equal to the difference between the Minimum Spend Level (MSL) and the actual contributory billing for that billing period.

Charges that contribute toward meeting the MSL, include but are not limited to: Direct Dialed calls (including intrastate and interstate calls), International calls, Operator Assistance calls and Domestic and International Monthly Recurring Charges. Federal taxes, state taxes, credits, Universal Service Fees, charges billed by other carriers and other surcharges and taxes do not contribute towards satisfying the minimum spend level requirement. Each billing month when the contributory charges are equal to or greater than the MSL, no MSL charge is imposed. If the contributory charges are less than the MSL rate, the difference between the MSL rate and the contributory charges will be a separate charge on the bill.

Minimum Spend Level \$11.99

*This service is grandfathered and limited to existing customers at their existing locations.

SECTION 3 - SERVICE DESCRIPTIONS

Frontier Single Rate Plan*

General Description

Frontier Single Rate Plan is an optional calling plan offered to Residential Customers for outbound direct-dialed domestic calling, utilizing Customer-provided switched access lines that are presubscribed to the Company. Frontier Single Rate Plan Residential Customers receive a single flat rate per minute, 24 hours a day, seven days a week for all interstate direct-dialed domestic calling.

Calls are billed in one (1) minute increments after an initial minimum call duration of one (1) minute. Any partial minute is rounded up to the next full minute.

The direct dial flat rate does not apply to international, directory assistance or operator assisted calls.

Other Term and Conditions

Taxes and Fees are in addition to the stated rates.

Rates and Charges

The Monthly Recurring Charge (MRC) for Frontier Single Rate Plan can be found in Section 4 of this tariff.

A Monthly Recurring Charge (MRC) is billed each month in advance and applies to each line presubscribed to Frontier Single Rate Plan. The MRC applies in full each month for each line except in the case of the first and last month partial billing cycles where the MRC will be prorated based on the actual number of days the Customer had the service during the billing cycle. When service is used for both interstate and intrastate calling, the MRC applies only once.

*This service is grandfathered and limited to existing customers at their existing locations.

SECTION 3 - SERVICE DESCRIPTIONS

TalkTime 30 – Plan F*

General Description

TalkTime 30 – Plan F is an optional calling plan offered to Residential Customers for outbound direct-dialed calling. TalkTime 30 – Plan F utilizes Customer-provided switched access lines that are presubscribed to the Company.

This plan is provided only in conjunction with the corresponding intrastate TalkTime 30 – Plan F.

Calls are billed in one (1) minute increments after an initial minimum call duration of one (1) minute. Any partial minute is rounded up to a full minute.

Any promotions that discount usage or apply free minutes are not allowed with this plan.

Other Term and Conditions

Taxes and Fees are in addition to the stated rates.

Rates and Charges

The Monthly Recurring Charge (MRC) for TalkTime 30 – Plan F can be found in Section 4 of this tariff.

A Monthly Recurring Charge (MRC) is billed each month in advance and applies to each account presubscribed to the Company's TalkTime 30 – Plan F. A fixed allotment of intrastate or interstate, interexchange interLATA and/or intraLATA domestic calling minutes, excluding minutes used for any International calling, is included in the MRC as specified below. Intrastate service is provided in accordance with the corresponding posted intrastate tariff. The MRC applies in full each month for each account* regardless of whether or not the full allotment of minutes is used, except in the case of first and last month partial billing cycles where the MRC will be prorated based on the actual number of days the Customer had the service during the billing cycle. One MRC applies per account, regardless of the number of lines presubscribed to the Company's TalkTime 30 – Plan F, in addition to applicable usage rates. When service is used for both interstate and intrastate calling, the MRC specified below applies only once. Additional minutes are available and billed on a per minute basis as set forth below. Unused minutes will not carry over to the next month.

Minimum Spend Level

When the Customer's billing for applicable charges falls below a minimum level in any full billing period, a shortfall charge will be applied, which is equal to the difference between the Minimum Spend Level (MSL) and the actual contributory billing for that billing period.

Charges that contribute toward meeting the MSL, include but are not limited to: Direct Dialed calls (including intrastate and interstate calls), International calls, Operator Assistance calls and Domestic and International Monthly Recurring Charges. Federal taxes, state taxes, credits, Universal Service Fees, charges billed by other carriers and other surcharges and taxes do not contribute towards satisfying the minimum spend level requirement. Each billing month when the contributory charges are equal to or greater than the MSL, no MSL charge is imposed. If the contributory charges are less than the MSL rate, the difference between the MSL rate and the contributory charges will be a separate charge on the bill.

Minimum Spend Level \$11.99

*This service is grandfathered and limited to existing customers at their existing locations.

SECTION 3 - SERVICE DESCRIPTIONS

Business Unlimited Long Distance Service

General Description

Business Unlimited Long Distance Service is an optional calling plan offered for unlimited outbound direct-dialed 1+ interLATA interexchange voice calling and discounted Toll Free voice usage to Business Customers who also subscribe to qualifying local services from their local exchange company, as described below. Business Unlimited Long Distance Service utilizes Customer-provided switched access lines that are presubscribed to the Company. To be eligible to receive this service, the Customer must demonstrate to the satisfaction of the Company at the time of subscription that he or she also subscribes to all qualifying local services and is subject to all restrictions regarding this service. This service is offered to both single line and multi-line.

Qualifying Local Services

The Customer must have all qualifying local services described below from their local exchange company to qualify for Business Unlimited Long Distance Service. To qualify for Business Unlimited Long Distance Service, the customer must subscribe to a qualifying business dial tone service, business exchange service or digital centrex service that include both:

Unlimited local exchange calling, and
Unlimited Zone Usage Message (ZUM), applicable to California only, and
Unlimited IntraLATA toll calling.

Such qualifying local business plans must provide unlimited local, IntraLATA and ZUM calling for a flat rate monthly price.

Limitations of Service

Business Unlimited Long Distance Service is not available with the following local/intraLATA business services: FlexGrow type services, PBX trunks, ground start lines or trunks, ISDN services, remote call forwarding services, foreign exchange services, foreign central office services, foreign zone services, public telephone services, public access smart-pay lines, FlexPath services, analog to digital conversion digital PBX services, WATS services or the equivalents of any such services.

Business Unlimited Long Distance Service is only available to Customers who, at the time of service initiation, subscribe to twenty-five (25) or fewer qualifying business dial tone lines (voice grade or voice grade equivalent) from their local exchange company. This service may only be purchased on up to ten (10) qualifying lines.

Specific call detail information is not available with this flat rated service.

The Customer may discontinue enrollment in Business Unlimited Long Distance Service at any time upon request to the Company. The Customer who discontinues or cancels the Company's service or the local exchange carrier's qualifying services or whose service is refused, canceled or discontinued by the Company or by the local exchange carrier shall forfeit eligibility for rates under this plan.

The Customer who forfeits eligibility for this Business Unlimited Long Distance Service and remains presubscribed to the Company's service will default to the plan on the main business account. If there is no other plan on the Customer's account or for single line accounts, the Customer will default to FlatRate Per Minute Plus Business Calling, FlatRate Per Minute Business Calling or Business Voice Data Connection unless the Customer selects another Optional Business Service.

SECTION 3 - SERVICE DESCRIPTIONS

Business Unlimited Long Distance Service (Cont'd)

Limitations of Service (Cont'd)

This service may only be used for voice applications and incidental non-broadcast facsimile usage, and may not be used for the transmission of data, for internet connections, or for any other non-voice application. This service may also not be used for resale, autodialing, predictive dialers, or facsimile broadcasting, blasting, or spamming. If the Customer uses this service for any non-eligible purpose, including but not limited to the examples noted above, the Company may immediately suspend, restrict or cancel the service without advance notice. The Company may also adjust the charges to FlatRate Per Minute Plus Business Calling, FlatRate Per Minute Business Calling or Business Voice Data Connection, as a result of the Customer's use of the service for non-eligible uses as set forth herein.

This calling plan is only offered where billing and system capabilities exist.

Other Terms and Conditions

Taxes and Fees are in addition to the stated rates.

Application of Charges

A Monthly Recurring Charge (MRC) is billed each month in advance and applies to each line presubscribed to the Company's Business Unlimited Long Distance Service. The MRC applies in full each month for each line regardless of the amount of qualifying usage. In the case of first and last month partial billing cycles, the MRC will be prorated based on the actual number of days the Customer had the service during the billing cycle.

Only charges for direct dialed outgoing voice minutes of use are covered under the MRC for this plan. All other charges for usage and services, including but not limited to International calling, Directory Assistance services, Operator Assisted services, collect or person to person calls, 900, 700, 976 calls, calls to access information services, Internet usage, fees and surcharges are not included as part of the MRC with this plan and will be charged separately.

Discounted rates as described below apply to Toll Free usage. Such usage is charged separately and is not part of the unlimited usage provided under this plan. For Toll Free calls, partial increments are rounded up to the next increment. All calls are rated at 60 seconds for the initial increment, and 6 seconds for each additional increment.

SECTION 3 - SERVICE DESCRIPTIONS

FlatRate Per Minute Business Calling

General Description

The FlatRate Per Minute Business Calling is offered to Business Customers for outbound direct dialed calling from presubscribed switched Access Lines at one flat per minute rate. Inbound (toll free) calling is also available for termination on switched Access Lines.

Customers may select a one or three year term commitment in order to obtain lower rates.

The Customer who discontinues or cancels the Company's service, or whose service is refused, canceled or discontinued by the Company under this tariff, shall forfeit eligibility for the discounted rates under this Option. The Customer who forfeits eligibility for this Option and remains presubscribed to the Company's service will be charged the FlatRate Per Minute Plus Business Calling plan rates as specified in this tariff.

Other Term and Conditions

Taxes and Fees are in addition to the stated rates.

Billing Increments

The billing increment and minimum call duration of each call is determined by the access method selected by the Customer and the call type. Partial increments are rounded up to the next increment.

<u>Access Type/Call Type</u>	<u>Initial Increment</u>	<u>Additional Increment</u>
Switched Access (Month to Month)	60 seconds	6 seconds
Switched Access (1 & 3 Year Term)	18 seconds	6 seconds
Operator Assisted	60 seconds	60 seconds

Termination Liability

When the Customer terminates service under this plan prior to the expiration of the Customer's selected term commitment, a termination charge will be assessed. The termination charge is calculated by multiplying 35 percent (35%) of the Customer's Minimum Spend Level times the number of months remaining in the term.

The early termination charge will apply under the following circumstances:

1. When the Customer disconnects its entire account; or
2. When the Customer selects a shorter term.

The early termination charge will not apply under the following circumstances:

1. When the Customer's physical location changes, but the term plan is continued at the new location;
2. When the Customer negotiates the term plan for a longer term;
3. When the Customer moves to a jurisdiction where the Company is prohibited from offering service;
4. When the Customer changes plan prior to 60 days of service;
5. When the Customer returns to the Company and the same term length agreement as a result of a Winback program; or
6. When the Customer moves from a one or three year term on FlatRate Per Minute Business Calling to either a one or three year term on FlatRate Per Minute Plus Business Calling or Business Voice Data Connection.

At the expiration of the term commitment, the Customer will continue at the same commitment and usage rate unless they choose to make a change, either to a different term commitment/minimum usage guarantee or to a different plan. If the Customer continues without changing, they will still be liable for the minimum usage guarantee to which they were originally subscribed.

SECTION 3 - SERVICE DESCRIPTIONS

Termination Liability

When the Customer terminates service under this plan prior to the expiration of the Customer's selected term commitment, a termination charge will be assessed. The termination charge is calculated by multiplying 35 percent (35%) of the Customer's Minimum Spend Level times the number of months remaining in the term.

The early termination charge will apply under the following circumstances:

1. When the Customer disconnects its entire account; or
2. When the Customer selects a shorter term.

The early termination charge will not apply under the following circumstances:

1. When the Customer's physical location changes, but the term plan is continued at the new location;
2. When the Customer negotiates the term plan for a longer term;
3. When the Customer moves to a jurisdiction where the Company is prohibited from offering service;
4. When the Customer changes plan prior to 60 days of service;
5. When the Customer returns to the Company and the same term length agreement as a result of a Winback program; or
6. When the Customer moves from a one or three year term on FlatRate Per Minute Plus Business Calling to either a one or three year term on FlatRate Per Minute Business Calling or Business Voice Data Connection.

At the expiration of the term commitment, the Customer will continue at the same commitment and usage rate unless they choose to make a change, either to a different term commitment/minimum usage guarantee or to a different plan. If the Customer continues without changing, they will still be liable for the minimum usage guarantee to which they were originally subscribed.

SECTION 3 - SERVICE DESCRIPTIONS

FlatRate Per Minute Plus Business Calling (Cont'd)

General Description (Cont'd)

Minimum Spend Level

When the Customer's billing falls below a \$40.00 minimum level in any full billing period, a shortfall charge will be applied which is equal to the difference between the \$40.00 minimum level and the actual contributory billing for that billing period.

Direct dialed calls (including intrastate and interstate calls), operator assisted calls, directory assistance calls, Toll Free calls and Monthly Recurring Charges, International Plan Monthly Recurring Charges, free minute promotions, percentage discount promotions and Toll Free MRC waivers will contribute toward meeting the Minimum Spend Level (MSL) unless otherwise excluded in the service description in the applicable Product Guide. Only charges of the Company will contribute to the MSL. Taxes, surcharges and charges billed by other carriers on the Customer's bill will not contribute to the MSL.

SECTION 3 - SERVICE DESCRIPTIONS

Business Voice Data Connection

General Description

The Business Voice Data Connection is offered to Business Customers for outbound direct dialed calling from presubscribed switched Access Lines at one flat per minute rate, regardless of distance. A Monthly Usage Guarantee (MUG) applies to the monthly billing. The Business Voice Data Connection Customer may choose to commit to a higher spend level in exchange for a lower per minute usage rate. Inbound (toll free) calling is also available for termination on switched Access Lines.

Customers may select a one or three year term commitment in order to obtain lower rates.

Other Term and Conditions

Taxes and Fees are in addition to the stated rates.

Billing Increments

The billing increment is determined by the MUG selected by the Customer. Partial increments are rounded to the next increment.

Customers whose total monthly long distance usage charges do not meet their subscribed Monthly Usage Guarantee level will be assessed the difference between their total long distance usage charges and their subscribed Monthly Usage Guarantee level.

Direct dialed calls, Conference Connections audioconferencing usage, operator assisted calls, directory assistance calls, Toll Free calls and Monthly Recurring Charges, International Plan Monthly Recurring Charges, free minute promotions and percentage discount promotions will contribute toward meeting the MUG. Only charges of the Company will contribute to the MUG. Taxes, surcharges, Federal Access Charges and charges billed by other carriers, including charges billed by Company's affiliates, on the Customer's bill will not contribute to the MUG.

Usage Rates (found in Section 4) are determined according to the Term Commitment and MUG selected by the Customer.

Supplemental Discount

The Supplemental Discount is available to new and returning Customers who establish new service with a one or three year term. Existing Customers who agree to modify their service by accepting a new contract term of one or three years will also be offered the Supplemental Discount. The Supplemental Discount applies to the cumulative usage each billing cycle and is at the percent shown below.

Three Year 25%

SECTION 3 - SERVICE DESCRIPTIONS

Business Voice Data Connection (cont'd)

Supplemental ISDN PRI Discount

Effective February 13, 2009 the Supplemental ISDN PRI Discount is available to new and existing Business Customers who subscribe to Business Voice Data Connection with a one or three year term plan and ISDN PRI Plus 10K, 20K or ISDN PRI Term and Volume from an affiliated local exchange company.

The qualified Customer will receive a 33% discount off of their domestic usage for the duration of their term period for the Business Voice Data Connection Calling Plan. The discount will appear on each month's bill.

The Customer who discontinues the Company's service as described above, or whose service is discontinued by the Company, prior to receiving all monthly credits, forfeits remaining eligibility, including future discounts.

The Supplemental ISDN PRI Discount is only available where the qualifying local service is available and is not valid in conjunction with any other Supplemental Discount.

Termination Liability

When the Customer terminates service under this plan prior to the expiration of the Customer's selected term commitment, a termination charge will be assessed. The termination charge is calculated by multiplying 35 percent (35%) of the Customer's Minimum Spend Level times the number of months remaining in the term.

- When the Customer disconnects its entire account;
- When the Customer selects a shorter term; or
- When the Customer negotiates a reduction in their monthly spending commitment more than one level during a billing cycle.

Early termination charge will not apply under the following circumstances:

- When the Customer's physical location changes, but the term plan is continued at the new location;
- When the Customer negotiates the term plan for a longer term;
- When the Customer moves to a jurisdiction where the Company is prohibited from offering service;
- When the Customer changes plan prior to 60 days of service;
- When the Customer returns to the Company as a result of a Winback program;
- When the Customer reduces their term monthly spend level one level during a billing cycle; or
- When the Customer moves from a one or three year term on Flex Distance Service to Unlimited Long Distance Service.

At the expiration of the term commitment, the Customer will continue at the same commitment and usage rate unless they notify the Company of a change to a different term commitment/minimum usage guarantee or to a different plan. If the Customer continues without notifying the Company of any changes, the Customer will remain liable for the MUG to which they were originally subscribed.

SECTION 3 - SERVICE DESCRIPTIONS

Business Toll Free Service*

General Description

Business Toll Free Service provides for the termination of inbound toll free calls to one party exchange access lines or to dedicated access facilities. The Company's Business Toll Free Services for intrastate use are sold as an add-on to interstate Business Toll Free Services. The Customer who forfeits eligibility for Plan K Service - Unlimited and remains presubscribed to the Company's service will default to TalkTime 30 – Plan F rates unless the Customer selects another Optional Residential Service.

This Plan is available for Residential Customer use. If the Customer uses the Plan for non-residential voice calling purposes, including but not limited to commercial facsimile, resale, telemarketing, prolonged internet connections, or autodialing, the Company may suspend, restrict or cancel the Customer's service, subject to applicable notice requirements. After applicable notice, the Company may also adjust the charges to TalkTime 30 – Plan F rates as a result of non-residential use.

The Customer who subscribes to Plan K Service - Unlimited is not eligible to participate in any free minutes promotions.

This calling plan is only offered where billing and system capability exists.

- This service is grandfather as of 6/16/2019

SECTION 3 - SERVICE DESCRIPTIONS

- **Plan K Service - Unlimited**

Rates and Charges

Application of Charges

A Monthly Recurring (MRC) is billed each month in advance and applies to each line presubscribed to the Company's Plan K Service - Unlimited. The MRC applies in full each month for each line, beginning with the first full month's bill. In the case of first and last month partial billing cycles the MRC will be prorated based on the actual number of days the Customer had the service during the billing cycle. Unlimited interLATA interexchange calling is included in the MRC as specified below (excluding minutes used for Operator Assisted calls and Directory Assistance calls). When service is used for both interstate and intrastate calling, the MRC specified only applies once.

***Frontier Commercial Voice Unlimited**

Frontier Commercial Voice Unlimited is a non-distance sensitive product that includes direct dial 1+ Domestic outbound service. Pre-subscription of the primary line to Frontier Communications of America, Inc. (FCA)(Frontier Online and LD) is required to subscribe to the Frontier Commercial Voice Unlimited. This product is only available in conjunction with the Frontier Commercial Voice Unlimited plan from the Frontier ILEC Companies Tariff.

Usage Charges

***Frontier Commercial Voice Unlimited** long distance minutes are only available on line(s) for commercial domestic outbound long distance voice usage and exclude toll free, 900, international, directory assistance, information services and data calls. Auto dialers and fax broadcast services are prohibited. Data Calls will be billed at an additional rate per minute. Data called are not included in the plan and will be billed in full minute increments at a separate rate. Canadian calls will be billed at a reduced rate shown in the rate schedule. Call segments will be rounded to the next full increment. Customers with usage inconsistent with normal commercial applications and usage patterns may be converted to non- Frontier Commercial **Voice Unlimited** service with charges for local and long distance calling. OneVoice Nationwide is not available with foreign central office services and public telephone services.

The Terms and Conditions may be revised periodically. Revisions are applicable to then current service and usage.

On the invoice there will be no individual call detail for usage that is associated with the unlimited direct dial calls that are included in this plan. If the customer changes their long distance pre-subscription on their line to another carrier, benefits of the plan will be forfeited.

Monthly Charges

The Monthly Recurring Charge (MRC) for Frontier Commercial Voice Unlimited can be found in Section 4 of this tariff.

If a new customer to Frontier Commercial Voice Unlimited signs up mid-billing cycle, the MRC will be prorated. Usage not included in the Unlimited Long Distance plan will be billed in arrears.

- As of June 16, 2019 this service is grandfathered and only available to current customers.

SECTION 3 - SERVICE DESCRIPTIONS

FRONTIER RESIDENTIAL UNLIMITED VOICE SERVICE

Frontier Residential Unlimited Voice Service is a non-distance sensitive product that includes direct dial 1+ outbound service. Pre-subscription of the primary line to Frontier Communications of America, Inc. (FCA) is required to subscribe. This product is only available in conjunction with the Frontier Residential Unlimited Voice Service or Frontier Unlimited Voice and Feature Bundle from Frontier's local exchange tariffs. This plan is available to customers of local exchange companies (LEC) with whom the carrier has a billing and collections contract. The Customer must subscribe to the Frontier Residential Unlimited Voice Service local service product offered by that associated LEC and must be on the main billing number on the account in order to be eligible for the Frontier Residential Unlimited Voice Service option. (C)

Usage Charges

With the Frontier Residential Unlimited Voice Service option, unlimited interstate usage is available only on the main billing number on the account. Frontier Residential Unlimited Voice Service long distance provides unlimited minutes of direct dialed 1+ interstate calling as well as Mexican and Canadian calls for residential voice service only. The unlimited minutes of long-distance service do not include usage for calls to 900 numbers, long distance directory assistance, or operator services.

Frontier Residential Unlimited Voice Service is offered to the residential user, for the Customer's personal, residential, non-business and non-professional use. Using Frontier Residential Unlimited Voice Service is prohibited for any commercial or governmental activities, for profit or non-profit, including but not limited to home office, business, sales, telecommuting, telemarketing, continuous autodialing, fax broadcast, fax blasting, accessing the Internet with a long distance dial-up number, resale or transfer of the Frontier Residential Unlimited Voice Service any other activity that would be inconsistent with normal residential voice applications and usage patterns, including conference calls. Average residential Customer use will be determined by Frontier based on average minutes of use of the Plan by representative residential Customers served by Frontier who subscribe to the Plan. If a Customer has substantially more than average residential Customer use, Frontier may regard such use as non-residential use subject to the Company remedies set forth following. Frontier may suspend, restrict or cancel the Customer's service, subject to applicable notice requirements. If it is determined that the usage on the Frontier Residential Unlimited Voice Service is not consistent with residential voice applications, substantially exceeds average residential use, or is otherwise prohibited as specified in this tariff (such as long distance dial-up Internet calls), Frontier may immediately convert the service to an FCA plan that charges for all long distance calls or, where systems permit, charge a 10 cent per minute rate for non-voice long distance calls, or calls that are not considered normal residential voice usage. Additional restrictions may apply as provided elsewhere in this tariff.

The Monthly Recurring Charge (MRC) for Frontier Digital Phone Service is billed in advance. If a new customer to Frontier Residential Unlimited Voice Service enrolls mid-billing cycle, the MRC will be prorated.

On the invoice there will be no individual call detail for usage that is associated with the unlimited direct dialed calls that are included in this plan.

A credit of \$23.00 will be applied to each Residential Access Line with a qualifying Frontier Broadband product. (C)

SECTION 5 - PROMOTIONAL OFFERINGS

At the Company's option, Carrier may provide certain special promotional offerings to its subscribers. Extended offerings (promotions lasting greater than 24 hours) may be noted for an effective period of specified limited duration and may additionally be limited to certain dates, times, locations or service options. All rates, terms or conditions applicable to each extended promotional offering will be specified and described in the DIPL section immediately subsequent to this provision. Promotions offered for no more than a 24-hour period may not be specified, but shall, however, be at rates which are more favorable to the customer than the Carrier's DIPL rates otherwise applicable.

Customer Referral Promotion

For all Frontier customers, a \$10.00 credit will be offered for each new customer referred to The Company by a current customer.

Frontier Communications of America Residential Services Buyer Protection Certificate

All new Frontier residential Customers will be eligible to receive a buyer protection certificate. This buyer protection certificate provides that if, after an initial three month trial period, but within six (6) months of commencing service, the new customer notifies The Company expressing dissatisfaction with The Company service and election to cancel The Company service, The Company will refund the initial change-over fee to switch to Frontier and the change-over fee to switch to another carrier. Total refunded charges may not exceed \$30 for any of the covered residential service offering. This offer is only valid for up to ninety (90) days after the initial three (3) month trial period.

Frontier Communications of America Term Plan Services Customer Satisfaction Guarantee

If a Customer is dissatisfied with The Company network quality (including any Year 2000 service disruptions) or sales or service support (but not rates or pricing), Customer may by written notice sent to Specialized Services Group, 20 Oak Hollow, Southfield, MI 48034, cancel any Frontier term plan without liability for an early termination fee if: (1) the problem is not caused by Customer or its vendors and is attributable to facilities or causes within Frontier's reasonable control; (2) The Company is unable to resolve a covered problem to Customer's reasonable satisfaction within 15 days after receipt of Customer's written notice; and (3) Customer's account with The Company is current (no outstanding balance older than 30 days) at the time of cancellation. If cancellation occurs during Customer's initial 90 days of service, then The Company will also reimburse Customer (month-to-month or term plan) for any changeover fees it incurred in transferring its service to The Company (up to a maximum of \$200).

SANS Option 199 Promotion

Effective November 15, 1996, all potential SANS Option 199 subscribers who affirm, via a written proposal, that they have received a competitive offer from either AT&T, MCI, Sprint, or WorldCom/LDDS will be eligible to receive an additional per month discount credit of 5%, 7.5%, 10%, 12.5%, 15%, 17.5%, or 20%. The discount credits are capped per month at either \$5,000, \$7,500, \$10,000, \$12,500, \$15,000, \$17,500, or \$20,000 for the 5%, 7.5%, 10%, 12.5%, 15%, 17.5%, or 20% discount respectively. The discount credits are not based upon, and exclude intraLATA usage where special intraLATA rates exist, international and Canadian outbound usage, non-contiguous United States usage, directory assistance, operator assistance, and any monthly or non-recurring charges, and any Business Essentials usage.

SECTION 5 - PROMOTIONAL OFFERINGS

Introductory Incentive Offer

From time to time the company may offer various incentives to new customers who sign up for service. These incentives will be available as described in marketing material, advertisements, or marketing contacts between the company and the prospective customer. Such incentives may be limited to specific markets, specific dates, specific products or specific pricing plans. To receive the incentives, customers will be required to initiate new service as described by the relevant marketing material, advertisement, or marketing contact. Term requirements and termination liabilities may be a condition of the Introductory Incentive Offer. The customer may also be required to purchase other specified services from the company or its affiliates in order to receive the incentives. Such incentives will include one or more of the following:

SECTION 6 - MISCELLANEOUS SERVICES

AREA CODE BLOCKING

A Frontier Communications of America 800 customer may select specific Area Codes from which they do not wish to receive inbound calls. Frontier Area Code Blocking does not apply under a shared 800 services arrangement, as intraLATA 800 calls are completed by the local exchange carriers (LECs). There is no charge for each "blocked call" under this option. However, Frontier reserves the right to charge for blocked calls if it is determined that the Area Code blocking feature is being abused by the customer as set forth in Tariff FCC No. 10. Customer requests to block or unblock area codes must be provided to Frontier at least one (1) hour in advance. Monthly recurring, non-recurring, or change charges do not apply. An Installation Charge applies as follows:

Installation	\$25.00
--------------	---------

Area Code Blocking

*Initially, only one Area Code may be blocked by the customer. Blocking of additional Area Codes may be requested by the customer at no additional charge.

FLEXIBLE CALL ROUTING

A Frontier Communications of America 800 customer may elect to have a Frontier originated 800 number forwarded to an alternate location. Customers will perform rerouting of 800 number termination through an IVRU system using an Access code. Changes made are in real time. Customers may establish a primary terminating telephone number and up to two alternate terminating 800 numbers. Flexible Call Routing does not apply to a shared 800 services arrangement, as the rerouting of any intraLATA 800 calls is completed by the local exchange carriers (LECs). Monthly recurring charges for Flexible Call Routing do not apply. The charges for Flexible Call Routing are as follows:

Change Charge	10.00*
---------------	--------

* Applies each time Frontier Customer Service changes the routing of a terminating 800 number, as requested by the customer (i.e., applies when the customer does not use the IVRU system for changes).

SECTION 6 - MISCELLANEOUS SERVICES

DEDICATED OPTIONAL CALLING PLAN

Frontier's Dedicated Optional Calling Plan ("the Plan") is an outbound service whereby dedicated long distance traffic is delivered by the customer to an originating Frontier switch site via dedicated facilities, and terminated over the Frontier network locations set forth below. Calls under the Plan are rated based upon duration of call, time of day, and originating or terminating location. Traffic that originates from an Frontier switch site (other than those below), and terminates to a terminating location set forth below, are rated at \$0.059 per minute. Directory assistance calls terminating anywhere in the continental U.S.A. are rated at \$0.369 per call. Operator Services and network services, (i.e., 800 services) are not available under the Plan.

Optional Calling Plan customers receive special usage rates of \$0.05 per minute for calls that originate and terminate as follows:

SECTION 6 - MISCELLANEOUS SERVICES

800 TIME OF DAY ROUTING SERVICE

Existing Frontier Communications of America 800 customers who signed up for Frontier Communications of America Time of Day (TOD) Routing Service between August 15, 1992 and September 15, 1992, and who agree to a one (1) year contract, will be able to route their 800 calls to alternate terminating telephone numbers based on either the TOD, Time of Day, Day of Week (DOW) or Day of Year (DOY). Calls may be routed to several different terminating telephone numbers, but is limited to routing changes at least 30 minutes apart. Once the TOD, DOW, DOY routing is established, customers are restricted to changing their predesignated routing. Customers will be billed a monthly recurring charge of \$50 for the TOD, DOW, DOY Routing Service. Any changes to the predesignated routing must be approved by the Carrier and will be assessed a non-recurring charge of \$110 per change.

Exchange and Point of Origination Routing/Blocking

Exchange and Point of Origination Routing and Blocking will provide inbound customers the ability to route or block inbound calls to multiple locations based on the originating NPA/NXX or NPA/NXX/XXX of the caller. The Exchange and Point of Origination Routing and Blocking features are not available with any of the following services/features: IntelliRoute, InstaLink 800, Flexible Call Routing, HomeConnections, Multipoint 800, Time of Day Routing, Spectrum, or Percent Call Allocation. CARRIER CO-PAYMENT

Subscribers who are also customers of either a designated Competitive Local Exchange Carrier (CLEC) or a designated Incumbent Local Exchange Carrier (ILEC), with whom the carrier has a billing and collection agreement, will receive a monthly co-payment as outlined below for each line presubscribed to the Carrier for interLATA long distance service. Customers who also purchase local service from the carrier will be eligible for a co-pay. Additionally, the Subscriber's intraLATA toll service for each eligible line must either be presubscribed to the Carrier or to an affiliated ILEC.

Co-payments will be made directly to the affiliated CLEC or ILEC on the Subscriber's behalf and will be applied as a credit against the Subscriber's local line charges on their monthly CLEC or ILEC invoice. The subscriber will be entitled to receive the co-payment for each month in which the eligible line remains presubscribed to the Carrier. If the Subscriber switches either their local or long distance service on a participating line to another local or long distance service provider, the line's co-payment eligibility will be terminated for the entire billing month.

Carrier Local Service Option:

Per Line - \$7.50

CLEC Co-Pay Option:

Per Line - \$7.00

Credit for the first month of eligibility will be prorated if the line is presubscribed to the Carrier for less than the entire billing month.

SECTION 6 - MISCELLANEOUS SERVICES

LOCAL SERVICE CONVERSION

Frontier long distance customers who have committed to a one, two or three year term plan for their respective long distance service and elect to convert their local telecommunications service to a Frontier affiliated local service provider may be eligible to receive a credit for the conversion charge (including any applicable feature charges) assessed by their current local service provider. The conversion charge is a one time charge and will be paid by Frontier directly to the local service provider on the Customers behalf.

FRAME RELAY SERVICE

Frame Relay Service ("FRS") is a packet-switched data service which provides Customers with a capability to connect locations via Permanent Virtual Circuits ("PVCs") for data transmission at speeds up to 1536kbps. The service is delivered to Frontier's point-of presence ("POP") via either the Local Telephone Service Provider or an Alternate Local Telephone Service Provider using a dedicated digital access line. The minimum service requirement is one year. Frontier's FRS service offering is available where appropriate facilities for the provisioning of the service exists.

Responsibility of the Customer

Error correction is the responsibility of the Customer's Frame Relay compatible equipment, even if purchased through Frontier Crossing. FRS switches may discard frames when the network supporting FRS is in a state of congestion. Congestion control and recovery mechanisms are set forth according to Frontier Network Technical Operations. The following information is required when ordering FRS:

- The number and location of Access Devices
- The number and location of the Ports
- The transmission speed of each port
- The Committed Information Rate ("CIR") of each PVC
- The Port origination and destination of each PCV CIR

Notice of Discontinuance

The Notice of Discontinuance for FRS components in service is sixty (60) days. Recurring charges apply for a period of 60 days from the date the Company receives the Notice of Discontinuance or until the requested date, whichever is later. The charges will continue to apply whether or not the Customer continues to use the FRS service components. Orders involving the discontinuance of FRS components may be delayed or withdrawn at any time prior to the discontinuance date.

SECTION 6 - MISCELLANEOUS SERVICES

FRAME RELAY SERVICE (Cont'd)

Notice of Discontinuance (Continued)

There is no charge for delay or withdraw unless actual discontinuance has already begun. A Notice of Discontinuance cannot be withdrawn or delayed on the Due Date for discontinuance. Termination charges will apply for the Customers being provided service under term contracts. The termination charges will be calculated as follows:

- Multiply the monthly rate of each Port being terminated by the number of months the service was purchased.
- Obtain the sum total of monthly charges paid to the date of cancellation per Port being terminated.
- Termination charge shall equal the difference between these totals.

No termination charges will apply to PVCs purchased across the port interfaces.

PVCs added or removed within the period of the contract will be billed at the rate specified for that term and PVC/CIR.

No termination charges will apply to specific ports providing a port of equal or greater value is purchased and due for activation within 60 days of termination date.

Cancellation, Delay or Change of an Order

A cancellation charge of \$250 per Port and \$25 per PVC applies. A delay charge of \$250 per Port and \$25 per PVC applies if the Customer delays an order within two calendar days immediately prior to the due date. If a change in order is requested within two calendar days of the Due Date, a design change charge applies. The design change charge is the same as charge as that applied to the delay charge. The Customer may request to expedite the due date of an order, if the expedited date is met by the Company a charge of \$500 per Port will apply.

Port Speed Access

FRS port connection provides the physical interface into the network and provides the logical termination of PVCs assigned to that port. Port access speeds are available at 56/64kbps, 128kbps, 256kbps, 384kbps, 512kbps, 640kbps, 786kbps, 1.024Mbps and 1.536Mbps. For each access facility used, one port is required for access to FRS. For each port used, the speed selected must be equal to or greater than any PVC connected port. Option II plan is for customers who desire both domestic and international ports. The port access speed Monthly Recurring charges are set forth as follows:

PVC and Committed Information Rate ("CIR")

A PVC is a logical Customer dedicated communications path defined between two port connections. Each PVC is assigned a CIR, which is the average minimum data rate the network will allocate to the PVC under normal operating conditions. The data transmission rate for a PVC can be greater than the CIR when excess capacity is available on the port and on the network. When this excess capacity exists, an average data rate above the CIR may be achieved up to the port capacity. Data sent across a virtual connection in excess of that connection's CIR will be marked by the network as being discard eligible ("DE"), and will be delivered only if the instantaneous demand for output on a transmission channel is equal to or less than the capacity of the queue for that channel.

Irregular Service Support

If a Customer service problem is not a direct result of Frontier Crossing's Frame Relay Service, than irregular service support by Frontier personnel or its designated party, to help resolve Customer responsible problem will be billable at an hourly rate. The hourly rate that Frontier will apply for such service will be \$250. If such service arises, Frontier will bill the Customer as a one time non-recurring charge for such incidents within a given monthly billing period.

SECTION 6 - MISCELLANEOUS SERVICES

FRAME RELAY SERVICE (Cont'd)

PREMIERE SERVICE LEVEL CRITERIA - DOMESTIC FRAME RELAY SERVICE

All provisions of Section 2.7 and 2.8 of this DIPL shall apply to this service Liability Agreement except as herein provided. This document provides an outline of the service level credits available to Customer for certain circumstances that affect the availability or quality of domestic frame relay service. Carrier will provide service level credits where Customer's Service under its Agreement with Carrier is affected in the following areas: (1) network availability; (2) network transit delay; (3) frame delivery; and (4) mean-time-to-repair. All measurements stated below will be calculated only from measuring points on Frontier's network.

Network Availability

"Network availability" is defined as a percentage calculated by dividing: (a) the total number of minutes during a calendar month in which Customer's permanent virtual circuits, from logical port to logical port, are actually available to exchange data between end points on Carrier's network, by (b) the total number of potentially available minutes for all the customer's permanent virtual circuits during the calendar month, based on Frontier's network configuration then in place, including electronics, for Customer. A lapse in network availability is calculated from the time Customer informs Carrier of a Service interruption and Carrier opens a trouble ticket to the time that Service is restored and Carrier closes the trouble ticket. The logical port is defined as the infrastructure port on the Frontier network, not including the local loop tail circuit to access the infrastructure port.

Carrier guarantees network availability of 99.5% per permanent virtual circuit provided by Carrier in a calendar month. This guarantee applies only to Customers whose covered Services from Carrier are provided to five or more discrete sites.

Carrier will issue a credit allowance equaling 30% of the Customer's monthly recurring charges for each affected permanent virtual circuit to a site for each calendar month that the Service does not meet this guarantee, upon receipt by Carrier within thirty (30) calendar days of the close of the affected billing cycle of a written request from the Customer for a credit, reasonably identifying the basis for the request.

SECTION 6 - MISCELLANEOUS SERVICES

FRAME RELAY SERVICE (Cont'd)

PREMIERE SERVICE LEVEL CRITERIA - DOMESTIC FRAME RELAY SERVICE(Cont'd)

Network Transit

"Network transit delay" measures the one-way trip delay between the entrance and exit nodes on Carrier's network. Network transit delay is measured from a time commencing with the transmission of the last bit of a packet from the origination point and ends upon receipt of the first bit of a packet by the destination point. Customer is responsible for reporting any suspected transit delay problems to Carrier, and Carrier will require one month from receipt of such report to validate the existence of a network transit delay problem. Customer shall cooperate with Carrier in addressing any reported transit delay problem. Carrier will determine network transit delay through periodic transmission of a 54 byte packet from the affected originating port to the affected terminating port as reported by Carrier's NavisCore management platform. This shall be the sole measure used to determine transit delay, and Carrier's measurements shall be conclusive.

For frame sizes of less than or equal to 256 bytes (including protocol overhead), Carrier guarantees an average one-way trip network transit delay of 70 milliseconds or less within the continental United States. If Carrier determines, during the thirty (30) day verification period set forth above, that the network transit rate fails to meet this guarantee, Carrier will issue a credit equal to 30% of the Customer's monthly recurring charges for each affected permanent virtual circuit upon receipt within thirty (30) days of the close of the affected billing cycle of a written request from the Customer for this credit.

For each immediately subsequent thirty (30) day verification period for which the network transit rate fails to meet the guarantee for the same affected permanent virtual circuit, Carrier will issue a credit equal to 50% of the Customer's monthly recurring charges applicable to such circuit upon receipt within thirty (30) days of the close of the affected billing cycle of a written request from the Customer for this credit.

SECTION 6 - MISCELLANEOUS SERVICES

FRAME RELAY SERVICE (Cont'd)

PREMIERE SERVICE LEVEL CRITERIA - DOMESTIC FRAME RELAY SERVICE(Cont'd)

Frame Delivery

“Frame delivery” is measured as the ratio of the total number of Customer-originated packets accepted by Carrier’s network to the Customer’s total packets successfully delivered by Carrier’s network on a monthly basis, expressed as a percentage figure, and excluding any misaddressing by the Customer or a third party. Packet delivery is measured by Carrier from the entrance port to the exit port of Carrier’s network. The Customer is responsible for providing to Carrier a written request for an evaluation of any suspected frame delivery latency and Carrier will require one month to validate the existence of any such latency. Customer shall cooperate with Carrier in addressing any reported delivery latency problem. Carrier will measure frame delivery through a measurement of the total packets transmitted and received across Carrier’s network as measured by Carrier’s Network Management System. This shall be the sole measurement for determining frame delivery and Carrier’s determination shall be conclusive.

Carrier guarantees that 99.9% of customer-originated frames will be delivered within the Committed Information Rate, except for frames marked “discard eligible.” Although not subject to credits, Carrier designs its frame relay network to achieve an average monthly frame delivery rate of 99.5% of the frames marked “discard eligible.”

If Carrier determines, during the thirty (30) day verification period set forth above, that the frame delivery rate fails to meet the guarantee, Carrier will issue a credit equaling 30% of the Customer’s monthly recurring charge for the affected permanent virtual circuit upon receipt within thirty (30) days of the close of the affected billing cycle of a written request from the Customer for this credit.

For each immediately subsequent thirty (30) day verification period for which the frame delivery rate fails to meet the guarantee for the same affected permanent virtual circuits, Carrier will issue a credit equaling 50% of the Customer’s monthly recurring charges applicable to such circuit upon receipt within thirty (30) days of the close of the affected billing cycle of a written request from the Customer for this credit.

SECTION 6 - MISCELLANEOUS SERVICES

FRAME RELAY SERVICE (Cont'd)

PREMIERE SERVICE LEVEL CRITERIA - DOMESTIC FRAME RELAY SERVICE(Cont'd)

Mean-Time-To-Repair

Mean-Time-To-Repair is calculated from the time that the Customer reports Service non-availability to Carrier and Carrier opens a trouble ticket, and it ends at the time that Customer's Service is repaired or restored and Carrier closes the trouble ticket. For Customers that are located within 50 miles of the Carrier's point-of-presence to which they are connected, Carrier guarantees a mean time to repair for permanent virtual circuits and ports provisioned entirely by Carrier of four (4) hours. This guarantee does not apply to force major events that are beyond Carrier's control or to local loops or other services or facilities not provided by Carrier (or to other items identified below). Carrier will issue a credit allowance equaling 30% of the Customer's monthly recurring charges for the affected permanent virtual circuit for each month during which this guarantee is not met upon receipt within thirty (30) days of the close of the affected billing cycle from the Customer of a written request for

redits Not Cumulative

The credits provided for hereunder are not cumulative with respect to any covered permanent virtual circuit that is affected. In no event may the credits provided for hereunder exceed the Customer's total monthly recurring charges for any covered permanent virtual circuit that is affected, regardless of the nature of the areas under which credits may be generated, and regardless of the number of months over which the credit made be provided.

If a credit cannot be made available within the time frame set out above, it will be made available on the next bill or as promptly thereafter as it can be provided after the qualification for a credit and its amount are determined.

DIPL Offering

As the Services made available to Customer by Carrier are common carrier services provided under DIPL, the above credits are subject to DIPL changes made by Carrier from time to time that are applicable to customers whose Services are provided under the affected tariff.

SECTION 6 - MISCELLANEOUS SERVICES

FRAME RELAY SERVICE (Cont'd)

PREMIERE SERVICE LEVEL CRITERIA - DOMESTIC FRAME RELAY SERVICE(Cont'd)

Exclusions

The above credits apply ONLY for Service that is provisioned entirely on Carrier's frame relay network, ONLY for Service-affecting events and ONLY to Customers electing to purchase Carrier Premiere service. For all other Carrier circuits, dedicated or otherwise, and for Customers that have not purchased Carrier's Premiere service level, credits are available under the provisioned that appear in Carrier's existing tariffs or price list's for interruptions or outages, as described therein. All credits under this Premiere service level option are calculated on the basis of a 30-day calendar month. Credits will be calculated in connection with, and will apply to Frontier portions of a circuit only. No credits are granted under this option for any local loop circuits or charges whatsoever, nor for the charges or fees that arise with another entity and that are passed through to Customer by Carrier.

In addition, the credits set forth above are not available in the event of the following causes; (a) lapses in services associated with new installations or orders, that is, before Carrier has received notice that Customer has accepted the new Service; (b) lapses in service resulting from the local loop facilities connecting the Customer to Carrier's network, or otherwise impacting the Customer's Service; © force majeure events beyond Carrier's reasonable control, with the exception of fiber cuts that are the responsibility of Carrier or for which redundancy is being provided under the Agreement with Customer; (d) problems associated with any act or omission of Customer or any third party, including but not limited to, Customer agents, contractors or vendors; or (e) scheduled maintenance periods when Customer has been informed of such maintenance. Upon written request of Customer, Carrier will notify Customer in writing of scheduled maintenance a reasonable time in advance of such scheduled maintenance. Carrier will use reasonable commercial efforts to minimize Service disruption.

The network transit guarantee does not apply with respect to periods of time during which a major network component, including but not limited to, a backbone link or gateway switch, is not functioning and/or a portion of Carrier's network is in an emergency reroute configuration. The mean-time-to-repair guarantee does not apply if the Customer has failed to provide Carrier adequate access to its facilities for testing significantly in advance of any qualifying event, or has otherwise caused Carrier to be unable to meet any of the criteria set out in this document.

POWER PACKAGE PLUS TERM PLAN (POWER PACKAGE PLUS)*

Power Package Plus is only available to new Pacesetter/Pacesetter Plus, Premier/Premier Elite, Maxcess III Plus, Solution II, Solution III, aEdge (and Instantline 800 customers when combined with an outbound account) customers who sign up for service after July 1, 1994. Power Package Plus customers are eligible to receive one of the following three mutually exclusive sub-options:

Sub-Option 1 - Available to customers who do not sign a term agreement, and is available for a period of one year on a monthly basis. Power Package Plus customer's whose total monthly domestic outbound, domestic inbound and international 800 termination usage equals or exceeds \$50.01 offers a discount credit of 5% off of all domestic outbound, domestic inbound and international 800 termination usage. In addition, if the customer's monthly strategic services** usage equals or exceeds \$50.01, an additional 5% discount credit will be applied to the customers domestic outbound, domestic inbound and international 800 termination usage. The total monthly discount credit may not exceed \$2,000 with this option.

Sub-Option 2 - Only available to customers who sign a one year (12 month) term of service agreement, and commit to one of the following mutually exclusive sub-sub-options:

Sub-Option 2.a - Power Package Plus customers (Solution II and Premier Elite customers are not eligible for this sub-sub-option 2.a) whose total monthly domestic outbound, domestic inbound and international 800 termination usage equals or exceeds \$50.00 offers a discount credit of 6% off of all domestic outbound, domestic inbound and international 800 termination usage. There is a minimum monthly usage requirement of \$80 with this option. In addition, the total monthly discount credit may not exceed \$2,500 with this option. A monthly termination fee of \$100 will be assessed per month for each month remaining in the 12 month term after a customer terminates service prior to the completion of the full 12 month term of service.

Sub-Option 2.b - Power Package Plus customers whose total monthly domestic outbound, domestic inbound and international 800 termination usage equals or exceeds \$50.00 offers a discount credit of 7% off of all domestic outbound, domestic inbound and international 800 termination usage. There is a minimum monthly usage requirement of \$240 with this option. In addition, the total monthly discount credit may not exceed \$2,500 with this option. A monthly termination fee of \$300 will be assessed per month for each month remaining in the 12 month term after a customer terminates service prior to the completion of the full 12 month term of service.

Sub-Option 2.c - Power Package Plus customers whose total monthly domestic outbound, domestic inbound and international 800 termination usage equals or exceeds \$50.00 offers a discount credit of 8% off of all domestic outbound, domestic inbound and international 800 termination usage. There is a minimum monthly usage requirement of \$400 with this option. In addition, the total monthly discount credit may not exceed \$2,500 with this option. A monthly termination fee of \$500 will be assessed per month for each month remaining in the 12 month term after a customer terminates service prior to the completion of the full 12 month term of service.

Digital Data Service (DDS)

Basic Description

A Digital Data Channel is a channel for duplex four-wire transmission of synchronous serial data at the rate of 2.4, 4.8, 9.6, 19.2, 56 or 64 Kbps. The actual bit rate is a function of the channel interface selected by the customer. The 64Kbps speed requires Clear Channel signaling and is available only where the provisioning of such facilities permits. Digital Data Service is available on a month-to-month, one year, two year, or three year term plan. Volume discount credits and conditions under which such credits are applied on the one, two and three year term plans are set forth on page 255 following.

High Capacity DS3 Service

General Description

A DS3 Channel is a High Capacity service which provides digital transmission of asynchronous serial data at 44.736 Mbps. The service is available wherever fiber optic facilities and capacity exist. The service components of a DS3 are an Inter Office Channel (IOC); a channel between two Frontier central offices, points of connection or a combination thereof. The monthly charge is mileage sensitive and includes two rate components. A fixed rate applies to the channel itself, and a mileage rate applies to each airline mile of the IOC. Monthly recurring and associated non-recurring charges for the provision of the local loop portion of the DS3 service will be passed through to the DS3 Customer, and will equal the charges assessed to the Company by the local loop provider.

Where applicable, a Network Connection Charge, applied monthly for the coordination of the local access channel and, an Access Coordination, a Charge applied monthly for connecting local access channels to an interoffice channel will be assessed.

A Volume discount schedule applicable to the inter-office portion of the OC12 service, and the conditions under which such discount credits will be applied are set forth on page 255 following.

The following monthly recurring volume discount credits are applicable to the Voice Grade, Digital Data, T-1 and Fractional T-1 service Customers who commit to a minimum monthly revenue level of at least \$1,000 for either a one year, two year or three year term of service. Total account revenue commitment is used to determine the applicable discount percentage and is based on voice, data, private line, local loop and strategic service revenue. Non-recurring charges may also receive a discount credit dependent upon the length of term.

* Private Line Offerings is grandfathered and no longer available.

CIRCUIT INSTALLATION CRITERIA:

Customer has been advised that installation dates can be affected by circumstances that are outside the control of the Carrier, or that are the result of installation requirements that are unique to Customer. Carrier will provide Customer with a credit for installation delays under certain defined circumstances, and the amount of this "Installation Credit" will increase as the length of the delay increases. These credits are listed below. The entire liability of the Carrier for all claims of whatever nature arising out of the Carrier's failure to install a circuit within the installation interval committed to Customer in a firm order commitment ("FOC") from the Carrier (and not the Customer-requested date) is for a one-time, per circuit, "Installation Credit" calculated as follows:

INSTALLATION CREDIT

Time Missed Install Date	Credit to be applied*
Greater than 1 week	25% of MRC for the first month
Greater than 2 weeks	50% of MRC for the first month
Greater than 3 weeks	75% of MRC for the first month
Greater than 4 weeks	100% of MRC for the first month; or an option to cancel the ordered circuit without charge but without an Installation Credit

No installation date can be a FOC unless Carrier completes a survey prior to releasing that installation date, so as to ensure that there are adequate entrance facilities available for the circuit. If additional construction requirements are identified, the interval will be adjusted accordingly.

* Installation Credits are NOT cumulative. No credit will be issued for installation delays when they are caused by Customer, the local telephone company or other local loop provisioning company, any vendor not under Carrier's control, or any force majeure events, unless Carrier's actions or inaction would independently merit an Installation Credit.

CIRCUIT PERFORMANCE CRITERIA

Customer has also been advised that, once a circuit is installed, there remains a continuing possibility of an unscheduled interruption in circuit availability. No network is immune from interruptions. However, we expect our network to be available for Customer use and offer certain credits if that does not occur. Carrier uses "circuit availability" as a measure of the relative amount of time during which a circuit is available for Customer use. A circuit will be deemed "unavailable" for the relevant period if circuit connectivity ("up time") over a calendar month period falls below 99.7%, or (ii) the circuit experiences a complete loss of service for a measured period of time. This unavailability is deemed an "Outage" for that period.

Carrier will provide credits to Customer for Outages, and the credits will increase as the length of the Outage increases. These credits are listed below. The entire liability of the Carrier for all Outage claims of any nature whatsoever arising out of Carrier's provision of service over a circuit (including its negligence) is for an "Outage Credit" calculated in accordance with the following formula:

Level of Outage	[less than 30 minutes] No Outage Credit
Level 1 Outage	[30 minutes to 60 minutes (1 hour)] 4 hours Outage Credit
Level 2 Outage	[60 minutes (1 hour) to 240 minutes (4 hours)] 12 hours (½ day) Outage Credit
Level 3 Outage	[240 minutes (4 hours) or more] 24 hours (1 day) Outage Credit

The following additional credits will be made available if applicable:

For each calendar month in which Customer experiences five or more Level 1 (or worse) Outages - 72 hours Outage Credit

For each calendar month in which Customer experiences five or more Level 2 (or worse) Outages - 1 month Outage Credit

For each calendar month in which Customer experiences five or more Level 3 (or worse) Outages - 1 month Outage Credit

If Customer experiences ten or more Level 2 (or worse) Outages, or four or more Level 3 Outages in any two consecutive calendar months, Customer may cancel its then-current contract with Carrier without an early termination charge in accordance with Carrier's then current Customer Satisfaction Guarantee procedures, but shall remain responsible for usage until its traffic is moved to another service provider. If a force majeure event causes a circuit to be unavailable for more than 30 consecutive days, Customer also may cancel that circuit upon written notice without an early termination charge, and on the same payment terms.

Service Level Credits (Cont'd)

Each Outage Credit is calculated on a per circuit, per occurrence basis and is calculated as a deduction from the monthly recurring charge (MRC) for the affected circuit. Each Outage will be calculated in fractions of hours measured from the time Carrier receives notice from Customer of actual circuit unavailability ("Trouble Ticket") until the circuit availability is restored by Carrier. Outage Credits will be issued only after Carrier has been notified by Customer of an Outage and there is confirmation of such Outage by Carrier. Outage Credits will appear on the Customer's next monthly invoice after receipt of Customer's request for the Outage Credit, or as soon thereafter as it can be processed. An Outage shall not include, and Outage Credits are not provided for: (a) a scheduled or force majeure interruption, or (b) unavailability or interruptions not caused by Carrier, such as unavailability or interruptions which become Outages because they are caused by Customer or other vendors or by their respective equipment or interconnections to Carrier's points of presence (POPs). Carrier's Mean Time to Repair an Outage is four hours after Carrier's receipt of the Trouble Ticket. Use and restoration of a circuit in emergency situations is subject to a priority system established by the FCC. Outage Credits may be cumulative up to the amount of the MRC for the affected month, and no amount of Outage Credits related to any month may exceed the applicable monthly MRC.

EXCLUSIONS

The above credits apply ONLY for Carrier dedicated circuits (DS-1 level and above) that are provisioned entirely on Carrier's SONET network and ONLY to Customers electing Carrier Premiere service. For all other Carrier circuits, dedicated or otherwise, and for Customers who have not purchased Carrier's Premiere service level, a Customer experiencing an interruption or outage shall be entitled to the credits made available under the provisions that appear in Carrier's existing tariffs or price list's for interruptions or outages, as described therein. A Customer electing Premiere Service with circuits not provisioned entirely on the Carrier SONET network will receive DIPL credits for such circuits if they experience interruptions or outages covered by the DIPL provision. All credits under this Premiere service level option are calculated on the basis of a 30-day month. Credits will be calculated in connection with, and will apply to Carrier portions of a circuit only. No credits are granted under this option for any local loop circuits or charges whatsoever, nor for charges that arise with another entity and that are passed through to Customer by Carrier.

In no event shall the total of credits under this service option exceed the applicable Carrier MRC for the affected circuit. As the services made available to Customer by Carrier are common carrier services provided under DIPL, the above criteria are subject to DIPL changes made by Carrier from time to time that are applicable to customers whose services are provided under the affected DIPL.
