If signal power is in the 2450 to 2759 Hertz band, it must not exceed the power present at the same time in the 800 to 2450 Hertz band.
- D. Where such customer provided equipment or communications system applies, signals having components on the frequency spectrum below 300 Hertz excluding ringing signals, the currents and voltages (including all harmonics and spurious signals) at the interface shall not exceed the following limits:
- The maximum rms (root mean square) value, including dc and ac components, of the current, per conductor, shall not exceed 0.35 ampere.
 - The magnitude of the peak of the conductor to ground voltage shall not exceed 70 volts.

1.24.1 General

The Schools and Libraries Discount Program permits eligible schools (public and private, grades Kindergarten through 12) and libraries to purchase the Company services offered in this catalog at a discounted rate, in accordance with the Rules adopted by the Federal Communications Commission (FCC) in its Universal Service Order 97-157, issued May 8, 1997 and the New York State Public Service Commission in its Opinion and Order 97-11 Adopting Discounts for Services for Schools and Libraries, issued June 25, 1997. The Rules are codified at 47 Code of Federal Regulation (C.F.R-) 54.500 et. seq.

As indicated in the Rules, the discounts will be between 20 and 90 percent of the pre-discount price, which is the price of services to schools and libraries prior to application of a discount. The level of discount will be based on an eligible school or library's level of economic disadvantage and by its location in either an urban or rural area. A school's level of economic disadvantage will be determined by the percentage of its students eligible for participation in the national school lunch program, and a library's level of economic disadvantage will be calculated on the basis of school lunch eligibility in the public school district in which the library is located. A non-public school may use either eligibility for the national school lunch program or other federally approved alternative measures to determine its level of economic disadvantage. To be eligible for the discount, schools and libraries will be required to comply with the terms and conditions set forth in the Rules. Discounts are available only to the extent that they are funded by the federal universal service fund. Schools and libraries may aggregate demand with other eligible entities to create a consortium.

- C. Square each difference obtained in step ii above.
- D. Add the square of the "V" difference and the "H" difference obtained in step iii above.

- F. Obtain the square root of the whole number result obtained above. Round to the next higher whole number if any fraction is obtained. This is the airline mileage.

2.5.19 EZ Plan II

EZ Plan II is a long distance switched service which provides customers with single per minute rates for both their inbound (8XX) and outbound (1+) access usage.

EZ Plan II inbound and outbound calls are non-distance sensitive, usage based, and flat rated.

The applicable per minute rates are set forth in this catalog, and vary based on the EZ Plan II service plan selected. EZ Plan II inbound and outbound calls are billed in six second increments with a thirty second minimum for each call. Any fraction of an increment is rounded up to the next whole increment.

Customers may subscribe to EZ Plan II service on a month-to-month basis, or subscribe to either a fifteen (15) or thirty (30) month term agreement. A Minimum Monthly Usage Level (MMUL) is required with each service plan offered. Beginning with the customer's second invoice, and for the remaining months of any service plan, the customer will be charged the difference between the gross account usage and the MMUL if the gross account usage is less than the MMUL. The MMUL and applicable per minute rates are set forth in this catalog.

EZ Plan II fifteen (15) and thirty (30) month term plans will automatically renew for successive fifteen (15) month periods unless the customer notifies the Carrier in writing of their intention to terminate the agreement at the completion of their current term plan. The Carrier will notify the customer at least 60 days prior to the end of their current term plan that the end of the term is approaching. Customers electing to continue to receive EZ Plan II service without renewing their current term will automatically revert to the current month-to-month rate. A monthly termination fee, equal to the MMUL of the term plan that the EZ Plan II customer is subscribing to, will be assessed for each month of the remaining months in the term commitment when an EZ Plan II customer terminates service prior to the completion of the full term of service.

A. Rate Structure

B. Usage Charges

The Customer's total monthly usage of Frontier VIP is charged at the applicable per minute rates set forth in this catalog. Frontier VIP switched inbound (8XX) and outbound service is billed in six-second increments, with an eighteen-second minimum for each call. Any fraction of an increment is rounded up to the next whole increment. To calculate rounding, the raw usage charge for the call is calculated as the call duration (minimum plus fractional duration) multiplied by the 4-digit (\$0.XXXX) rate value. That amount is then rounded up or down to the nearest whole cent.

Subscribers to VIP Standard and VIP Plus term plan service will be eligible to receive discounts on domestic 1+ and domestic Toll-Free calls. Applicable discounts are based on total monthly (domestic) usage for the respective service. VIP Standard total usage does not include the local services of affiliated ILECs with a billing and collection agreement with the Carrier, while VIP Plus total usage does include these local services. All discount credits will be applied against the customer's interstate usage. Applicable discounts are set forth in this catalog. Subscribers to Frontier VIP Term Plan services will receive a percent discount off the switched or dedicated Term Plan base rate, based on the Term Plan selected. All calls are billed in one-minute increments with a minimum billing of one minute per call. Only one Frontier plan is to be on the account for all lines.
