- 2.3.4** The Company reserves the right to refuse to process Third Party Billed calls when the billed party and/or standard validation techniques do not confirm acceptance, or based on characteristics of the originating location.
- 2.3.5** The Company reserves the right to discontinue service, limit service, or to impose requirements as required to meet changing regulatory or statutory rules and standards, or when such rules and standards have an adverse material affect on the business or economic feasibility of providing service, as determined by the Company in its reasonable judgment.

- 2.5.2** In no event shall the Company be liable for any incidental, indirect, special, or consequential damages (including, but not limited to, lost revenue or profits) of any kind whatsoever regardless of the cause or foreseeability thereof.
- 2.5.3** When the services or facilities of other common carriers are used separately or in conjunction with the Company's facilities or equipment in establishing connection to points not reached by the Company's facilities or equipment, the Company shall not be liable for any act or omission of such other common carriers or their agents, servants or employees.
- 2.5.4** The Company shall not be liable for any failure of performance hereunder if such failure is due to any cause or causes beyond the reasonable control of the Company. Such causes shall include, without limitation, acts of God, fire, explosion, vandalism, cable cut, storm or other similar occurrence, any law, order, regulation, direction, action or request of the United States government or of any other government or of any civil or military authority, national emergencies, insurrections, riots, wars, strikes, lockouts or work stoppages or other labor difficulties, supplier failures, shortages, breaches or delays, or preemption of existing service to restore service in compliance with state and federal laws.

The Customer shall indemnify, defend and hold harmless the Company (including the costs of litigation and reasonable attorney's fees) against:

- 2.6.1** Claims for libel, slander, infringement of copyright or unauthorized use of any trademark, trade name or service mark arising out of the material, data, information, or other content transmitted over the Company's facilities or equipment; and
- 2.6.2** Claims for patent infringement arising from combining or connecting the Company's facilities or equipment with facilities, equipment, apparatus or systems of the Customer; and
- 2.6.3** All other claims (including, without limitation, claims for damage to any business or property, or injury to, or death of, any person) arising out of any act or omission of the Customer, or the Customer's agents, servants, employees, or customers, in connection with any service or facilities or equipment provided by the Company.

2.7 Taxes and Fees

All state and local taxes (e.g., gross receipts tax, sales tax, municipal utilities tax) are listed as separate line items and are not included in the quoted rates.

2.7.1 Pay Telephone Surcharge

In order to recover the Company's expenses to comply with the FCC's pay telephone compensation plan effective on October 7, 1997 (FCC 97-371), an undiscountable per call charge is applicable to all interstate, intrastate and international calls that originate from any domestic pay telephone used to access the Company's services, unless otherwise specified in this tariff. The Pay Telephone Surcharge, which is in addition to standard tariffed usage charges and any applicable service charges and surcharges associated with the Company's service, applies for the use of the instrument used to access the Company service and is unrelated to the Company's service accessed from the pay telephone.

SECTION 2 - TERMS AND CONDITIONS, (Cont'd.)

2.7 Taxes and Fees, (Cont'd.)

2.7.1 Pay Telephone Surcharge, (Cont'd.)

Pay telephones include coin-operated and coinless phones owned by local telephone companies, independent companies and other interexchange carriers. The Pay Telephone Surcharge applies to the initial completed call and any reoriginated call (i.e., using the "#" symbol).

Whenever possible, the Pay Telephone Surcharge will appear on the same invoice containing the usage charges for the surcharged call. In cases where proper pay telephone coding digits are not transmitted to the Company prior to completion of a call, the Public Pay Telephone Surcharge may be billed on a subsequent invoice after the Company has obtained information that the originating station is an eligible pay telephone.

2.7.2 Arizona Universal Service Fund

In addition to all other taxes and fees that are listed herein or passed through in the normal course of business (e.g., sales tax), the Company shall also add an amount to be collected to each bill for recovery of the Arizona Universal Service Fund (AUSF).

Towards the ultimate goal that basic service be available and affordable to all citizens of the state, the Arizona Corporation Commission has created support mechanisms to assist in the provision of such service in high-cost areas. Pursuant to Arizona Administrative Code, R14-2, Article 12, the rule directs that the surcharge will be levied on all telecommunications service purchased by end-users.

The Arizona Universal Service Fund (AUSF) surcharge will be the amount set forth in the Arizona Administrative Code, R14-2, Article 12. The percentage and amounts set forth will be subject to periodic adjustment by the Company.

SECTION 2 - TERMS AND CONDITIONS, (Cont'd.)

2.8 Terminal Equipment

The Company's facilities and service may be used with or terminated in Customer-provided terminal equipment or Customer-provided communications systems, such as a telephone set, PBX or key system. Such terminal equipment shall be furnished and maintained at the expense of the Customer, except as otherwise provided. The Customer is responsible for all costs at his or her premises, including personnel, wiring, electrical power, and the like, incurred in the use of the Company's service. When such terminal equipment is used, the equipment shall comply with applicable rules and regulations of the Federal Communications Commission, including, but not limited to, Part 68. In addition, equipment must comply with generally accepted minimum protective criteria standards and engineering requirements of the telecommunications industry, which are not barred by the Federal Communications Commission.

2.9 Installation

No installation at the Customer's premises is required to use the Company's service. Service is initiated by request of the Customer. The Company may refuse to provision service when the Company cannot verify that the party requesting the Company's service is authorized to request or to change service.

SECTION 2 - TERMS AND CONDITIONS, (Cont'd.)

2.10 Payment for Service

2.10.1 Service is provided and billed on a monthly basis. Bills are due and payable upon receipt. Late payment fees for Customers who have their charges billed by an affiliated local exchange company will be the late payment fee applied by the affiliated local exchange company to overdue charges. Customers that are not billed by an affiliated local exchange company may be charged a late payment fee of 1.5% per month, or the maximum amount allowed by law, whichever is lower. The late payment fee will apply to any overdue charges and will begin to accrue no sooner than the 25th day after the billing date or as allowed by law. In the event that the Company incurs fees or expenses, including attorney's fees, collecting, or attempting to collect, any charges owed to the Company, the Company may charge the Customer, and the Customer will pay, all such fees and expenses reasonably incurred. Collection fees on overdue charges apply in addition to all applicable late payment charges and shall begin to accrue when the Account is assigned to an outside collection agency.

2.10.2 The Customer is responsible for payment of all charges for service furnished to or used by the Customer, or the Customer's agents, servants, employees or customers. The Customer is also responsible for payment of charges for a third person's use of service to which the Customer subscribes. All charges due from the Customer are payable to the Company or to the Company's authorized billing agent. Any objections to billed charges must be reported to the Company or its billing agent within six months after receipt of bill. Adjustments to the Customer's bill shall be made to the extent that circumstances exist, which reasonably indicate that such changes are appropriate.

2.10.3 Reserved For Future Use

(D)
—
(D)

2.10.4 The Company reserves the right to assess a charge of \$20.00, or the maximum amount allowed by law, whenever a check or draft presented for payment of service is not accepted by the institution upon which it is written.

SECTION 2 - TERMS AND CONDITIONS, (Cont'd.)

2.10 Payment for Service, (Cont'd.)

2.10.5 The Customer shall be responsible for all calls placed by or through Customer's equipment by any person. In particular and without limitation to the foregoing, the Customer is responsible for any calls placed by or through the Customer's equipment via any remote access features.

2.10.6 Duplicate Bill Charge

A Residential Customer who requests a reprint of their monthly long distance bill that is older than six months and whose long distance charges are billed by an affiliated local exchange company will be assessed the charge applied by the affiliated local exchange company.

2.11 Deposits

2.11.1 The Company reserves the right to examine the credit record of the Customer, using any lawful sources for determining credit standing. If the Customer's financial condition is unknown or unacceptable to the Company, the Customer may be required to provide the Company with a security deposit, which the Company may apply against overdue charges. The amount of the security deposit shall be equal to two months' estimated usage but may vary with the Customer's credit history and projected usage. The Customer shall be apprised that after one year of service the account shall be reviewed, and in the event that all amounts due have been paid within the terms and conditions of this tariff, the deposit shall be refunded in full. If subsequent payment or usage patterns change, the Company may request an increase in or resubmission of the security deposit as appropriate. The Company may also require a security deposit before service is restored (along with the payment of overdue charges) from the Customer whose service has been discontinued for nonpayment of overdue charges. Such security deposit may be based on a new credit history (taking into account the discontinuance of service) and estimates of usage.

2.11.2 The fact that a security deposit has been made in no way relieves the Customer from the prompt payment of bills upon presentation.

SECTION 2 - TERMS AND CONDITIONS, (Cont'd.)

2.12 Advance Payments

The Company reserves the right to require an advance payment from the Customer instead of or in addition to a security deposit. The advance payment shall be in an amount equal to or less than estimated installation charges plus two months' estimated billing.

2.13 Interruption of Service

Credit allowances for interruptions of service which are not due to the Company's testing or adjusting, to the negligence or other wrongful act or omission of the Customer, or to the failure of channels, equipment and/or communications systems provided by the Customer, are subject to the general liability provisions set forth in this tariff. It shall be the obligation of the Customer to notify the Company immediately of any interruption in service for which a credit allowance is desired by the Customer. Before giving such notice, the Customer shall ascertain that the trouble is not within his or her control, or is not in wiring or equipment, if any, furnished by the Customer. Interruptions caused by Customer-provided, or Company-provided automatic dialing equipment are not deemed an interruption of service as defined herein since the Customer has the option of using the long distance network via LEC access. For purposes of credit computation, every month shall be considered to have 30 days and every day 24 hours. For all Company services no credit shall be allowed for an interruption of continuous duration of less than twenty-four hours. For services billed on a usage basis, credits will be limited to, at maximum, the price of the call that was in progress at the time of the service interruption.

SECTION 2 - TERMS AND CONDITIONS, (Cont'd.)

2.14 Cancellation and Restoration of Service

Service continues to be provided until canceled by the Customer or until canceled by the Company as set forth below. The Company may render bills subsequent to the termination of service for charges incurred before termination. The Customer shall pay such bills in full in accordance with the payment terms of this tariff.

2.14.1 Service may be suspended by the Company, without notice to the Customer, by blocking traffic to certain cities or NXX exchanges when the Company deems it necessary to take such action to prevent unlawful use of its service. The Company will restore services as soon as it can be provided without undue risk.

2.14.2 Cancellation by the Customer

The Customer may have service discontinued upon written or verbal notice to the Company. The Customer shall pay the Company for service furnished until the cancellation date specified by the Customer or until the date that the written cancellation notice is received, whichever is later.

2.14.3 Refusal, Suspension or Cancellation by the Company

- A.** For nonpayment: The Company, by written notice to the Customer and in accordance with applicable law, may refuse, suspend or cancel service without incurring any liability when there is an unpaid balance for service that is more than 30 days overdue. Cancellation of service for nonpayment is subject to early termination liability obligations set forth in this tariff.
- B.** For returned checks: The Customer whose check or draft is returned unpaid for any reason, after two attempts at collection, shall be subject to refusal, suspension or cancellation of service in the same manner as provided for nonpayment of overdue charges.

SECTION 2 - TERMS AND CONDITIONS, (Cont'd.)

2.14 Cancellation and Restoration of Service, (Cont'd.)

2.14.3 Refusal, Suspension or Cancellation by the Company, (Cont'd.)

- C. For lack of use: The Company, by written notice to the Customer, may refuse, suspend or cancel service in the same manner as provided for nonpayment of overdue charges if after three full billing cycles the service has not been used.
- D. For violation of law or this tariff: Except as provided elsewhere in this tariff, the Company may refuse, suspend or cancel service, without notice, for any violation of terms of this tariff, for any violation of any law, rule, regulation, order, decree or policy of any government authority of competent jurisdiction, or by reason of any order or decision of a court or other government authority having jurisdiction which prohibits the Company from furnishing such service or prohibits the Customer from subscribing to, using, or paying for such service.
- E. For the Company to comply with any order or request of any governmental authority having jurisdiction: The Company may refuse, suspend or cancel service, without notice, in order to permit the Company to comply with any order or request of any governmental authority having jurisdiction.

- A. For use of telephone service for any purpose other than that described in the application.
- B. For neglect or refusal to provide reasonable access to the Company or its agents for the purpose of inspection and maintenance of equipment owned by the Company or its agents.

SECTION 3 - DESCRIPTION OF SERVICE AND RATES, (Cont'd.)

3.2 Calculation of Distance

Usage charges for all mileage sensitive services are based on the airline distance between the rate center locations associated with the originating and terminating points of the call.

The distance between the originating and terminating points is calculated by using the "V" and "H" coordinates of the applicable rate centers as defined by Telecordia (formerly Bellcore) and on file with the FCC in AT&T FCC Tariff No. 10, in the following manner:

Step 1 - Obtain the "V" and "H" coordinates for the rate center of the originating and the destination points.

Step 2 - Obtain the difference between the "V" coordinates of each of the rate centers. Obtain the difference between the "H" coordinates.

Step 3 - Square the differences obtained in Step 2.

Step 4 - Add the squares of the "V" difference and "H" difference obtained in Step 3.

Step 5 - Divide the sum of the square obtained in Step 4 by ten (10). Round to the next higher whole number if any fraction results from the division.

Step 6 - Obtain the square root of the whole number obtained in Step 5. Round to the next higher whole number if any fraction is obtained. This is the distance between the originating and terminating rate centers of the call.

Formula:
$$\sqrt{\frac{|V_1 - V_2|^2 + |H_1 - H_2|^2}{10}}$$

SECTION 3 - DESCRIPTION OF SERVICE AND RATES, (Cont'd.)

3.3 Timing of Calls

Billing for calls placed over the network is based in part on the duration of the call.

- 3.3.1** Timing for all calls begins when the called party answers the call (i.e. when two way communications are established). Answer detection is based on standard industry answer detection methods, including hardware and software answer detection.
- 3.3.2** Chargeable time for all station-to-station calls begins when connection is established between calling party and the called party and ends when the calling party hangs up thereby releasing the network connection. If the called party hangs up but the calling station does not, chargeable time ends when the network connection is released either by automatic timing equipment in the network, or by an operator.
- 3.3.3** Minimum call duration for billing purposes is one minute unless otherwise specified in the individual rate schedules of this tariff.
- 3.3.4** Calls are measured and billed in one minute increments unless otherwise indicated in this tariff. Any partial minute is rounded up to a full minute.
- 3.3.5** No charges apply to incomplete calls.
- 3.3.6** Usage charges are computed on a per call basis. When computation of call charges result in fractional cents, the resulting charge is rounded to the nearest penny.

6.1.4 Determining Usage Charges

Monthly usage charges are calculated separately for each exchange access line termination. There is a minimum usage charge based on the average completed call of 30 seconds per completed call for each billing period for each rate period. Therefore, if the average duration of all such calls is less than 30 seconds, the total use equals the number of calls multiplied by 30 seconds. Usage charges apply as follows:

- A.** For each exchange access line termination of a given toll free number, the total chargeable hours for each rate period for each termination is the greater of (a) or (b) following, rounded up to the nearest tenth.
 - 1. Determine the total actual Business/Residence Line Toll Free Service hours associated with a given toll free number and exchange access line for each rate period (chargeable time for each call) or;
 - 2. Determine the total equivalent hours associated with a given toll free number for the exchange access line termination used for each rate period by applying the minimum average time requirement of 30 seconds per call (1 call X 30 seconds).
- B.** Using the total chargeable hours per rate period determined in 1. preceding and the table of hourly rates, multiply the hourly rates(s) in the appropriate usage tier by the number of hours used in each usage tier. The total charge is the sum of all the usage.
- C.** The charges for a fractional part of a month will be a proportionate part of the monthly recurring charge based on the actual number of days service is provided, plus the usage charges applicable for that month. Every month is considered to have 30 days.

The Visa credit card is provided by Associates National Bank (ANB) and all terms, conditions and restrictions related to the credit card are determined by the provider. All terms and conditions for the credit card are outlined in the cardholder agreement provided to Customers by ANB. ANB reserves the right to modify the terms and conditions (including the interest rate) of the credit card as with any other credit card offering provided by ANB.

6.18 10% Discount Program, (Cont'd.)

6.18.1 10% Discount Program with Visa credit card, (Cont'd.)

Customers will receive a 10% discount on all long distance usage (including LDMTS (domestic and international) and operator assisted except directory assistance calls. In addition to this, the program consists of a discounted Visa credit card interest rate or a rebate check for one year on their long distance usage.

This offer is not available with any other discounts or promotions. This offer is only available to residential Customers who are pre-qualified for the credit card.

If the Customer is denied the credit card, the Company will process the Primary Interexchange Carrier (PIC) change and the Customer will be an LDMTS Customer. However, the Customer will not be on the 10% Discount Program.

If the credit card portion of this program is discontinued by the Customer, the remaining long distance portion of the program will default back to the non discounted rate. If the long distance portion of this program is discontinued, the remaining credit card portion of the program will default to the non discounted interest rate or, if the customer has chosen to receive rebates on long distance usage, those rebates will be discontinued.

A. Interest Rate Discount

If the Customer changes to another long distance provider, a 30 day grace period will be provided in which customer must change back to the Company (PIC), to prevent the interest rate from defaulting back to the non discounted interest rate.

B. Rebate Check

For Customers choosing the rebate option, the rebate will be provided with the customer's credit card statement and can be cashed as a normal check.

The Customer must be a Company Customer on the last day of the three month period to receive the rebate. If the customer changes long distance carriers, all accumulated rebate dollars will be forfeited. In order to receive the rebate check, the Customer must use the GTE Visa credit card at least once during the three month rebate period.

A. NFR Revenue Pricing Plans, (Cont'd.)

2. Individual Case Basis (ICB) Arrangement

Customer specific prices will be made available to similarly situated Customers on a non-discriminatory basis.

ICB's will also be used for other NFR in the case of non-standard service periods, to provide additional discounts, and/or stabilization of rates over a contract life.

As part of an ICB arrangement, the Company may offer to stabilize NFR pricing rates over the life of the contract. In such an arrangement, the ICB monthly rate is guaranteed against Company initiated increases and will apply for the entire duration of the ICB contract.

In the event that an increase authorized by a regulatory agency is applied to the ICB price, the customer may terminate the contract without incurring any termination liability charges.

3. Early Termination Charge

When the Customer discontinues service under a Revenue Pricing Plan prior to the expiration of the commitment term, an Early Termination Charge will be assessed as follows.

If the Revenue Pricing Plan is discontinued prior to the completion of the first year of the contract term, the Customer is liable for 100% of the minimum monthly revenue commitment for the unexpired portion of the first year of the term, plus 50% of the minimum monthly revenue commitment for the remaining portion of the applicable term.

If the Revenue Pricing Plan is discontinued after completion of the first year of the contract term, the Customer is liable for 50% of the minimum monthly commitment for the remaining portion of the applicable term.

Early termination will not apply if the Customer enrolls in a Frontier Revenue Pricing Plan with equal or greater revenue commitment and term commitment than the current plan.

Payment of the total amounts owed by the Customer under this provision is due as a lump sum within thirty (30) days of the date the plan is discontinued.

The Customer that migrates their service to a Frontier affiliate will not incur termination liability.

2. Credit Allowances

If a particular service is interrupted beyond a specified time, an appropriate credit will be provided as set forth below.

For an interruption of four hours or more for each calendar day for a particular service, and if requested by the customer, the Company shall provide the customer with one (1) days credit for the particular service circuit recurring rates.

The credit shall be based on a pro-ration of the number of out of service days to the number of days in the month. As an example, six out of service days/thirty (30) days in a month is equal to a 20% rebate of the monthly charges.

B. Term Commitment Plans
