GENERAL RULES AND REGULATIONS

A. Establishment and Furnishing of Service

1. Applications for Service

Applications for service shall constitute a contract when accepted verbally or in writing by the Company or upon the establishment of service. The initial minimum period for which charges shall apply will be one month or more or as otherwise may be specified elsewhere in this Product Guide of the Telephone Company. An applicant who has no account with the Telephone Company, or whose financial responsibility is not a matter of common knowledge may be required to make an advance payment at the time application is made in an amount equal to the charges for one month's local service plus the service connection, installation or construction charges that may be applicable. An applicant may also be required to make a deposit in an amount deemed sufficient by the Telephone Company to protect it from unpaid bills.

2. Telephone Numbers

The customer has no property right in the telephone number and the Telephone Company may change any number at any time whenever it deems it advisable in the conduct of its business.

3. Alterations

The customer agrees to notify the Telephone Company promptly whenever alterations or new construction on premises owned or leased by him will necessitate changes in the Company's wiring and equipment; and the customer agrees to pay the Company's current charges, if any, for such changes.

4. Responsibility of Customer for Payment

The customer is required to pay all charges for exchange services and facilities, and for toll messages in accordance with provisions contained elsewhere in this Product Guide. The customer is held responsible for all charges for telephone service rendered at his telephone, both exchange and toll, including charges for toll messages on which the charges have been reversed.

5. Maintenance and Repair

The Telephone Company undertakes to maintain and repair the facilities which it furnishes to customers. The customer agrees to take good care of the instruments and all accessories connected therewith and shall be financially liable and pay for all malicious, willful and negligent damage. The customer may not, or permit others to rearrange, disconnect or remove any equipment or wiring installed by the Telephone Company. If the equipment or wiring is rearranged, disconnected or removed, the Telephone Company shall have the right to make a charge in accordance with the rules and regulations then in effect.

6. Unusual Installation Costs

Where special conditions or special requirements of the customer involve unusual construction or installation costs, the customer may be required to pay all or a reasonable portion of such costs. If a charge is made, the ownership of all materials and equipment used shall remain with the Telephone Company.

7. Change or Relocation of Facilities

When an applicant, customer, association, government entity or political division or other third-party requests a change in the type, location or the relocation underground of communications facilities used to provide telephone service, the requestor shall be required to pay the cost incurred by the Telephone Company for such change or relocation of facilities. Payment for the cost of the change or relocation must be made prior to the change or relocation.

GENERAL RULES AND REGULATIONS

B. ESTABLISHMENT AND MAINTENANCE OF CREDIT

1. Establishment of Credit

170 IAC 7-1.3 Telecommunications Customer Service Rights and Responsibilities adopted and revised from time to time by the Indiana Utility Regulatory Commission will apply in treating an individual's or firm's obligation to make restitution for past service indebtedness.

170 IAC 7-1.3 Telecommunications Customer Service Rights and Responsibilities will also apply when collecting deposit against future service indebtedness when an individual's or firm's credit must be partly substantiated by means of a cash deposit.

2. Deposits

In order to insure the payment of all charges due for its service the Telephone Company may require any applicant or customer to establish and maintain his credit by means of a cash deposit. Any such deposit shall be returned to the customer or credited to his account in accordance with 170 IAC 7-1.3 Telecommunications Customer Service Rights and Responsibilities.

C. OBLIGATION AND LIABILITY OF THE TELEPHONE COMPANY

1. Availability of Facilities

The Telephone Company's obligation to furnish exchange and toll service is dependent upon its ability to secure and retain without unreasonable expense, suitable facilities and rights for the construction and maintenance of the necessary poles, lines, circuits, equipment, etc.

2. Interruption of Service

If service is interrupted for more than 48 hours other than by the negligence or willful act of the customer, an allowance at the minimum rate for the telephone facilities and class of service affected at the time of the interruption shall be made for the time such interruption continues.

Any adjustment shall apply only to the period the interruption continues beyond 24 hours after due notice of the interruption is received by the Telephone Company. No other liability shall in any case attach to the company on account of interruptions of service.

3. Directory Errors and Omissions

The Telephone Company issues directories to assist in furnishing prompt and efficient service and does not guarantee to its customers correct listings therein. Every precaution is taken to prevent errors in, and omissions of, directory listings but they may occur. If such errors or omissions do occur the Telephone Company's liability therefore shall be limited to a reasonable adjustment not to exceed one half of the charges for local exchange service for the directory period. The Telephone Company will not be a party to controversies arising between customers or others as a result of listings published in the directories.

GENERAL RULES AND REGULATIONS

C. OBLIGATION AND LIABILITY OF THE TELEPHONE COMPANY (Continued)

4. Transmitting Messages

The Telephone Company does not transmit messages but offers the use of its facilities for communications between patrons. If because of transmission difficulties the operator, in order to accommodate the customer, repeats messages, the operator is deemed to be acting as the agent of the persons involved and no liability shall attach to the Telephone Company because of any errors made by the operator or misunderstandings that may arise between customers because of such errors.

5. Use of Connecting Company Lines

When suitable arrangements can be made, lines of other telephone companies may be used in establishing wire connections to points not reached by this Company's lines. In establishing connections with the lines of other companies, the Telephone Company is not responsible or liable for any action of the Connecting Company.

6. Defacement of Premises

The Telephone Company shall exercise due care in connection with all work done on customer's premises. No liability shall be attached to the Telephone Company by reason of any defacement or damage to the customer's premises resulting from the existence of the Telephone Company's instruments, apparatus and associated wiring on such premises, or by the installation or removal thereof, unless such defacement or damage is the result of the sole negligence of the Telephone Company.

D. Payment for Services and Facilities

1. Bills are rendered in advance of the service period. Charges for exchange service, long distance service, and auxiliary equipment are due when the bill for such service is rendered (mailed) and becomes delinquent 17 days thereafter. Penalties for delinquent payments are authorized, but cannot exceed \$9.00 or three (3) percent of all monies owed, whichever is greater, on residence customer bills and \$9.00 and three (3) percent of all monies owed on business customer bills. All bills are payable at the Telephone Company's business office or authorized collection agency. Failure to receive a bill does not relieve the customer of the responsibility for paying promptly. (I)

2. When warranted, in the judgment of the Telephone Company, special toll bills may be rendered. In such cases the amounts billed are due and payable on demand. (I)

3. In the event of default on payment of any sums due for either local exchange or toll services the Telephone Company will exercise all options it has at its disposal for collecting past due accounts under 170 IAC 7-1.3 Telecommunications Customer Service Rights and Responsibilities.

4. Installment Billing

- a.) Installment billing may only be used by residence customers.

B. FrontierWorkssm Small Business Solutions (con't)

2. Regulations

A. A bundle is available only to customers who are served from a central office in which all services in the bundle are offered and can be provided by the Company to the customer. FrontierWorkssm Small Business Solutions are grandfathered service offerings, limited to existing customers at existing locations.

B. The bundles are offered only under one-year, two-year, and three-year term contracts.

1. If the rates change during the term of the contract, the contract rates will remain in effect in the customer's contract.
2. The customer may order additional bundles at the term rates of the contract during the term of the contract. The termination date for additional bundles shall be the termination date of the initial contract.
3. To cancel the contract before the end of the contract term, the customer must provide at least 60 days advance written notice to the Company. The date on which the contract will be cancelled shall be 60 days after the date on which the Company receives the notice, unless the notice specifies a later date of cancellation.
4. Early termination liability charges shall apply if the customer cancels one of more bundles before the end of the contract term. A bundle is considered to be cancelled if any of its component services are cancelled, unless the bundle is upgraded to a bundle of greater value.
 - a. The early termination liability charges shall be calculated as follows: For each cancelled bundle, with adjustments pursuant to paragraph b. below, a rate differential shall be determined, equal to the difference between the Rate Group 1 term rate for the contract term and the Rate Group 1 term rate for the longest available contract term for which the customer's subscription, upon cancellation, would have otherwise qualified. For example, if the customer cancels in the second year of a three-year contract, the rate differential would be the difference between the Rate Group 1 rate for a three-year term and the Rate Group 1 rate for a two-year term. If the cancellation occurs before the end of the minimum contract period, the rate differential shall be the difference between the Rate Group 1 term rate for the contract term and the month-to-month rates applicable to customers in Rate Group 1 for the component services of the bundle. The rate differential shall then be multiplied by the number of months (rounded to the next whole month) for which the customer subscribed to the bundle before cancellation. The result shall be the early termination liability charge for the cancelled bundle.
